WHO WE ARE

For the past decade, EUROVETS has been a trusted name for veterinary and animal health products, proudly serving businesses and clinics throughout the emirates and the wider Gulf region. We offer a comprehensive range of premium products at highly competitive prices, for both small and large animal practices. Our product scope covers diagnostics, medicines, nutrition, feed, equipment, consumables and more.

Our logo reflects the integrated flow of imports, supply and services, integrated into one modern brand. Our clean lines provide you with a glimpse of our partnership experience.

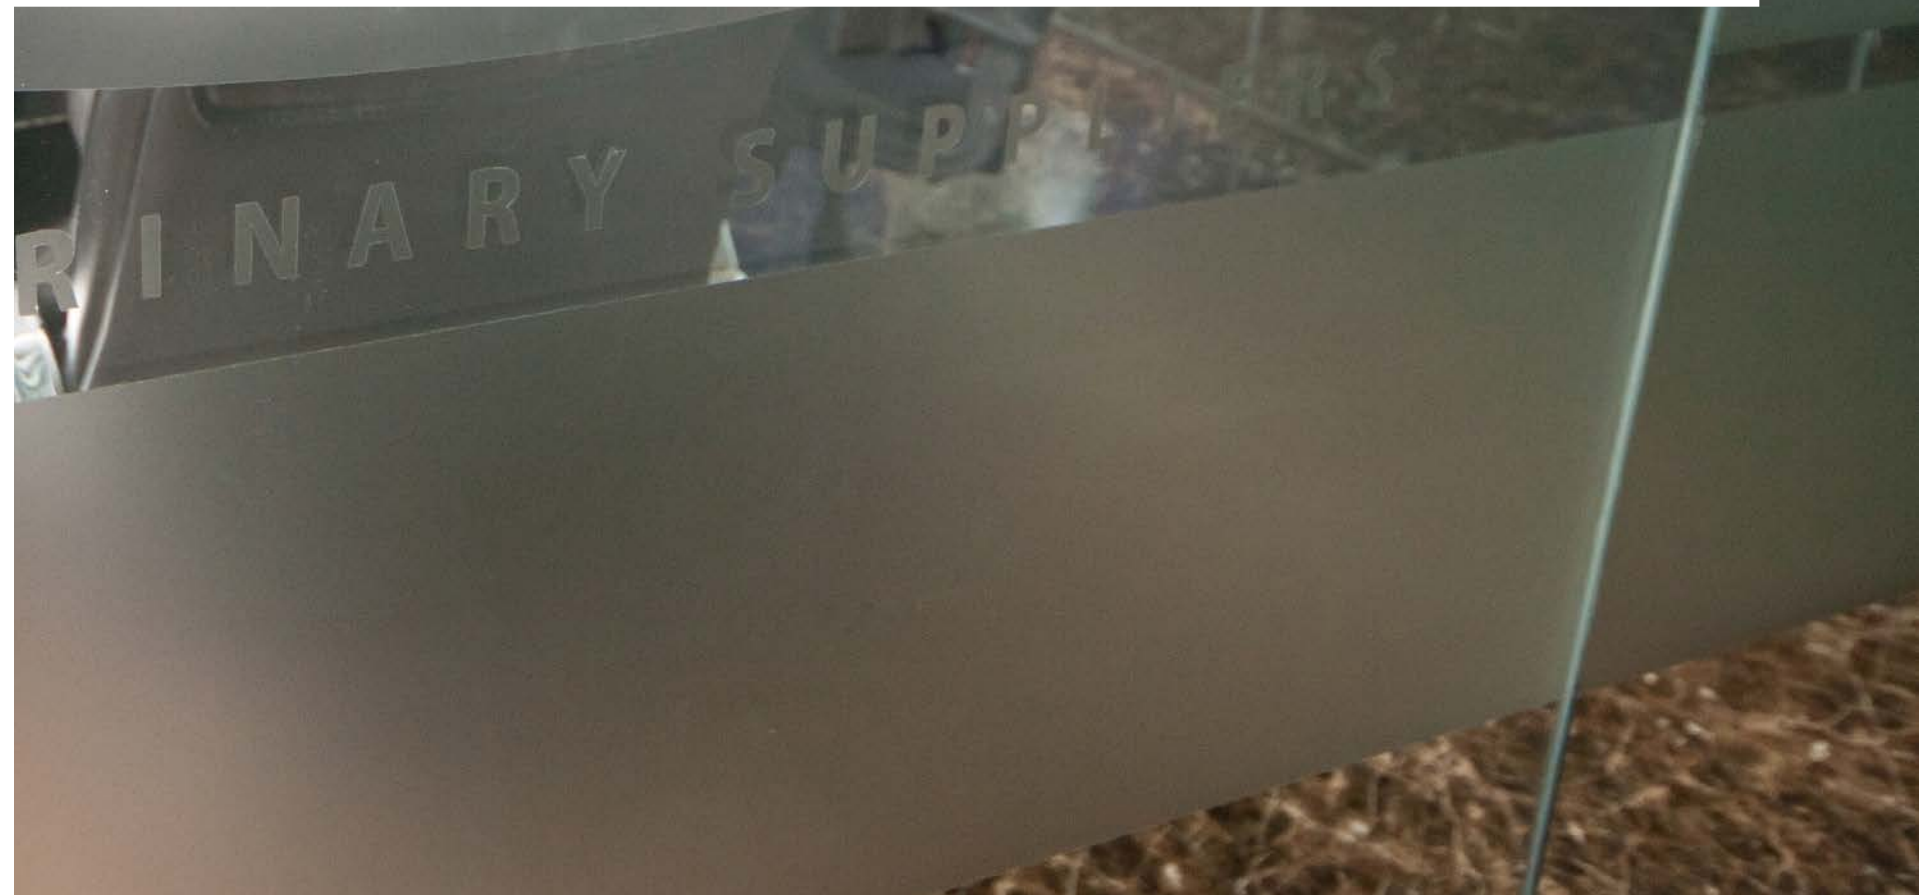

HISTORY

EUROVETS was established in 2001, by two Western-trained companion-animal vets, Dr Martin Wyness and Dr Jonathan Hale. Their focus was to improve and close the gap for supply and demand issues that many veterinarians faced.

Over the years we have grown to become one of the UAE's most trusted suppliers of premium animal health products.

Today our extensive range of innovative premium products range from feed and supplements through to consumables, instruments and major equipment such as digital radiography, laser therapy and caging systems.

UNIFIED TEAM

EUROVETS strength is our people. As a company, we select, train and reward focused and dedicated individuals in order to sustain our leadership position in the market. As much as we are committed to developing and rewarding the skills of our people, each individual in our team has the opportunity to contribute to the success of EUROVETS.

Everything we do is intended to improve animal health in our communities, through connecting animals with premium brands and services.

OUR PURPOSE

EUROVETS mission is to advance animal welfare through premium solutions.
