EUROVETS
VETERINARY SUPPLIERS

ABOUT EUROVETS

EUROVETS IS YOUR COMPLETE VETERINARY SUPPLY & SUPPORT SOLUTION

Eurovets, established in 2001 has become the Middle East's foremost supplier of some of the world's best known veterinary products to veterinary clinics throughout the UAE.

We represent leading multi-national brands in nutrition, veterinary equipment, medicines and consumables for companion, -equine and production animals. In addition to the traditional wholesaling, Eurovets provides warehousing, distribution, marketing and sales resources in order to support the product in the region.

We also offer a host of value-added services such as maintenance and support for all equipment supplied; service-based offerings such as Spectrum allergy testing; even end-to-end IT solutions for clinics.

Eurovets supports Continued Professional Development, imparting knowledge of the latest developments in the field to veterinary professionals through high-powered seminars.

We pride ourselves on our professional approach and offer vet specialized product advice where required.

In conclusion our mission is to not only deliver excellent products but to be committed to deliver exceptional customer service to all veterinary clinics and pet retailers in the region.

Eurovets YOUR headquarters for veterinary supply and support and a proud distributor of the Bio PetActive brand.

Bio PetActive has been providing its products and services in pet industry since 1998. Since its foundation, the company has handled the challenges experienced by pet owners and provided medical and non-medical products, nutritional aids and care products for the lovely pet friends to have a healthy and quality life.

With a researcher approach, they put a special emphasis on the R&D and quality principles of each product they produce.

With the transition to the new plant, they are exporting to more than 10 countries with more than 100 products in their product range together with their other brands, meeting increasing domestic and foreign demands. They aim to provide new products to the market which are researching and developing in their laboratories and rapidly increasing the export of their products abroad to make Bio PetActive a world brand.

With the motivation, they receive from the positive feedback from the customers and their zero-compromise policy on quality, the company aims to be one of the leading companies in the industry in the future as it is today.

Omega⁺

Essential Fatty Acid Supplements
for Cats and Dogs

EUROVETS CODE: E008727

Omega 3, omega 6, omega 9 fatty acids enriched with fish oil for dogs and cats, containing vitamins and zinc, formulated as a liquid nutritional supplement.

Viyomega; It can be used in cats and dogs that are old and suffer from sickness traumas. Viomega helps in the treatment and prevention of certain skin and fur disorders caused by vitamin or unsaturated fatty acid deficiencies.

Within;

Omega 3; It increases the oxygenation of the brain (especially in older animals) and boosts the performance of active dogs. It increases the learning capacity of puppies.

Omega 6; The lack of omega 6 leads to dry, brittle and thin appearance of the fur. It also affects the integrity of the skin; Skin becomes more sensitive to dehydration and infection.

Zinc; It is vital in collagen and keratin synthesis. It has healing properties and helps the animal's fur to look beautiful.

viyΩmega

Salmon Oil

Omega 3 and Omega 6
for Cats and Dogs

EUROVETS CODE: E008728

Viyomega Salmon oil; contains 100% salmon oil. Salmon oil contains high **Omega 3** and **Omega 6** fatty acids.

The proven benefits of omega-3 and omega-6 fatty acids:

- Makes skin and feather soft and bright.
- Helps prevent skin allergy.
- Reduces the inflammation caused by conditions such as arthritis (joint inflammation).
- Helps Inflammatory Bowel Disease.
- Regulates the immune system.
- Helps the mental development of the fetus and puppies.
- It improves the cognitive functions of old dogs.
- Lowers blood pressure and triglycerides.
- Helps to produce more collagen.
- Reduces joint problems.

Bio Kitten

Kitten Milk Replacer | Food Supplement for Kittens

A food supplement for your kitten precisely formulated to match mother's milk and supports optimal growth and development of your furry friend. Its balanced formula contains proteins, vitamins, minerals, and oils.

Providing all the nutrition needs of prematurely separated kittens, **Bio Kitten** contains all necessary vitamins and minerals and helps healthy muscle and bone growth. It can also be used as a nutritional supplement for pregnant and lactating mothers or old and weak adult cats.

Its lactose content is reduced in order to prevent diarrhea. Thus, Bio PetActive **Bio Kitten** provides a healthy and easily digestible nutrition for your cat.

Taurine: An essential amino acid for cats. It is not naturally synthesized in the body and must be taken with food. It is necessary for visual and reproduction. It protects against free radicals, which makes taurine an important antioxidant that helps fight aging.

Bio Puppy

Puppy Milk Replacer | Food Supplement for Puppies

A food supplement for your puppy precisely formulated to match mother's milk and supports optimal growth and development of your furry friend. Its balanced formula contains proteins, vitamins, minerals, and oils.

Providing all the nutrition needs of prematurely separated puppies, **Bio Puppy** contains all necessary vitamins and minerals and helps healthy muscle and bone growth. It can also be used as a nutritional supplement for pregnant, nursing, old and weak adult dogs.

Its lactose content is reduced in order to prevent diarrhea. Bio PetActive **Bio Puppy** provides a healthy and easily digestible nutrition for your dog.

L – Carnitine: It is used for metabolism of fatty acids in the body and conversion of energy within the cells. It helps to reduce the proportion of fat in the body, losing weight, and to turn the fat in between ineffective muscle masses into energy.

VitaliCAT Paste

Vitamin Paste
for Kittens

Junior

A feed premix containing **Vitamin, Taurin, Dikalsiyum fosfat** and **MOS** to support the healthy development of kittens. It provides a well-balanced vitamin combination to your kitten.

Ingredients: Vitamin A, Vitamin D3, Taurine, Vitamin B6, Niacin, Vitamin B1, Ca-D-Pantothenate, Vitamin B2, Folic Acid, Biotin, Vitamin B12, Dicalcium Phosphate, MOS

Contents;

Taurine; Taurine can not be synthesized in the body of cats and must be supplied from outside. Many metabolic disorders such as deterioration of heart function, deterioration of eye health can be observed in taurine deficiency. In addition, growth retardation due to the effect of skeletal system in kittens is one of the symptoms that can be seen due to taurine insufficiency.

Dicalcium phosphate: Calcium and phosphate are involved in bone and tooth structure. There is an optimum ratio of calcium phosphate for cats and dogs. Failure to adequately meet the calcium and phosphate needs, and impairment of this balance can lead to skeletal problems that can not be corrected in life, especially in the offspring that are in rapid growth.

Mannan-oligosaccharide (MOS): It contributes to a balanced population of bacteria in the intestines. They are also effective against harmful bacteria in the intestine. They prevent pathogenic bacteria from developing by preventing binding to the intestinal mucosa. Thus it supports the digestive system.

Taurine Biotin

VitaliDOG Paste Vitamin Paste for Puppies *Junior*

A feed premix containing **Vitamin, L-Carnitine, Dicalcium phosphate and MOS** to support the healthy development of puppies. It provides a well-balanced vitamin combination to your puppy.

Ingredients: Vitamin A, Vitamin D3, Ca- D-Pantothenate, Niacin, L-Carnitine, Vitamin B6, Vitamin B1, Vitamin B2, Folic Acid, Biotin, Vitamin B12, Dicalcium Phosphate, MOS

Contents;

L-Carnitine; helps your lovely puppy to develop healthy muscles and helps the body to burn fat effectively. Therefore, carnitine is very beneficial and effective during physical exertion, especially when it is long-term. In some dog breeds (Boxer, Doberman, Cocker Spaniel, etc.), serious heart diseases are often associated with inadequate production of carnitine by the body.

Dicalcium phosphate: Calcium and phosphate are involved in bone and tooth structure. There is an optimum ratio of calcium phosphate for cats and dogs. Failure to adequately meet the calcium and phosphate needs, and impairment of this balance can lead to skeletal problems that can not be corrected in life, especially in the offspring that are in rapid growth.

Mannan-oligosaccharide (MOS): It contributes to a balanced population of bacteria in the intestines. They are also effective against harmful bacteria in the intestine. They prevent pathogenic bacteria from developing by preventing binding to the intestinal mucosa. Thus it supports the digestive system.

L-Carnitine Biotin

BIO
PetActive
BIODENT
HEXIDINE

Dental Care
for Cats and Dogs

EUROVETS CODE: E008733

CHLORHEXIDINE GLUCONATE %0.12

BIODENT HEXIDINE provides hygiene of mouth and reduces bacteria plaque which is the most common reason for gingival diseases.

Chlorhexidine Gluconate; has antiseptic properties. Helps remove the plaque and tartar formation on the teeth, also prevents foul breath.

Zinc Gluconate; is effective in preventing plaque formation. It inhibits the sulfur compounds in mouth and stops breath odor

Refreshes the breath

PetActive

BIO-EYES

TEAR STAIN REMOVER

Tear Stain Remover
for Dogs and Cats

EUROVETS CODE: E008734

Bio-Eyes Tear Stain Remover, is a remedy made to remove stains that form due to tear flows around your cat's and your dog's eyes.

Helps you clean the stains and burrs around the eye of your cat and dog.

Regular use prevents the formation of tear stains.

In the content; Aloe Vera Extract: to repair and nourish the skin in sensitive skinned cats and dogs.

BiOotic

Ear Cleaning Solution
for Cats and Dogs

EUROVETS CODE: E008735

An ear cleaning solution specially formulated for cats and dogs, which helps to provide ear hygiene, and removes all kinds of dirt and ear drains.

- Helps cleanse wax in the ears.
- Prevents smell.
- Keeps the ear canal dry.

CatiMALT Paste Pat

Hairball Prevention for Cats

Specially formulated malt paste to prevent and eliminate hairballs in cats.

Cats swallow some hairs while licking their bodies with the purpose of cleansing and these hairs eventually become hairball in their stomach or intestines causing blockage in the gastrointestinal tract.

If the hairball moves past the stomach and goes to intestines, it could calcify and block the bowels. Long-haired cats do face this problem a lot. The wad in the stomach that can't be retched is a common problem among short-haired cats that groom a lot. The best way to protect is to use Cati Malt Paste, both for prevention of constipation and for the gentle movement of hairball that have not yet been into the stomach and intestines.

MOS (Mannan oligasakkarit); with the prebiotic effect, increases the beneficial bacteria in the bowel; Causing harmful bacteria to diminish, helping our friend to benefit from the maximum amount of food he has eaten, and playing a role in strengthening immunity.

Puppy Trainer

EUROVETS CODE: E008751

For Puppies And Young Dogs

Toilet training spray that helps you teach your pet puppies and young dogs to do its business wherever you want.

Helps, get rid of bad habits. Suitable for indoor and outdoor use.

Best results in training depends on the breed of your dog.
