EUROVETS

VETERINARY SUPPLIERS

ABOUT EUROVETS

EUROVETS IS YOUR COMPLETE VETERINARY SUPPLY & SUPPORT SOLUTION

Eurovets, established in 2001 has become the Middle East's foremost supplier of some of the world's best known veterinary products to veterinary clinics throughout the UAE.

We represent leading multi-national brands in nutrition, veterinary equipment, medicines and consumables for companion, -equine and production animals. In addition to the traditional wholesaling, Eurovets provides warehousing, distribution, marketing and sales resources in order to support the product in the region. We also offer a host of value-added services such as maintenance and support for all equipment supplied; service-based offerings such as Spectrum allergy testing; even end-to-end IT solutions for clinics.

Eurovets supports Continued Professional Development, imparting knowledge of the latest developments in the field to veterinary professionals through high-powered seminars. We pride ourselves on our professional approach and offer vet specialized product advice where required.

In conclusion our mission is to not only deliver excellent products but to be committed to deliver exceptional customer service to all veterinary clinics and pet retailers in the region. Eurovets YOUR headquarters for veterinary supply and support, and a proud distributor of the Foschi brand.
ABOUT FOSCHI

Foschi is part of the Demas Group, which is an Italian Company founded in 1968 from the Foglietti Family.

They are committed to:

- Leadership and excellence in delivering quality healthcare veterinary products, services and knowledge;
- Educating and training veterinarians and other veterinary healthcare professionals;
- Striving to improve the health status of animals.

Foschi's division ARIA (Advanced Resources for Imaging and Application) is dedicated to the radiology market for equine and small animals. They supply direct and computed radiography solutions, software, accessories for DR panels and digital radiology units.
INDEX

WITHOUT ARIA

ARIA®

Advanced Resources
for Imaging and Applications

POWERED BY ARIA

ADVANTAGES OF ARIA:
# SPECIFIC, CONCRETE, IMMEDIATE

Designed and developed in Italy by Foschi

ARIA Software is an intelligent and versatile software to help veterinarians capture high quality images, generating clear results in just a few seconds in order to make more precise and prompt diagnosis. Is not just a software tool but a robust platform to manage the whole workflow of the clinic, from reports to medical records and from archive to administrative data.

YOUR IMAGES JUST IN **THREE CLICKS.**

3. DIAGNOSE

FOSCHI X1 PLUS SYSTEM + ARIA®
Advanced Resources for Imaging and Applications

Made in Italy

The radiology unit X1 Plus represents the maximum innovation in the field of high frequency equipment for veterinary radiology. With a power of 30 KW, the rotating anode of the X1 Plus enables very rapid exposure times, thus ensuring the quality of radiography at any time. The convenient front touch screen enables the selection of the exposure parameters, already available and divided into animal breed, size and projections.

4 WAY FLOAT X-RAY TABLE

Made in Italy 🇮🇹

Floating table, suitable for our full range of portable x-ray generators, with a solid, compact structure and a noiseless mechanical brake. It enable to easily get perfect positioning every time thanks to table movements in every horizontal direction.
X-ray grid (optional): focused 100 cm, ratio 8:1, 103 lines per inches. The grid is mounted on removable support that permit an easy preparation for exams without the grid.

VITA FLEX CR SYSTEM +

code **02069509 - E005826**

CARESTREAM Vita Flex CR Systems are designed for small-to-midsize hospitals, clinics and practices that need compact digital solutions at an affordable price. With two options for throughput speed, Vita computed radiography systems offer in-house, high-quality digital imaging to fit your workflow. The flexible orientation makes it perfect for small spaces in offices or in mobile settings.

- Smaller size and weight
- Multiple throughputs (30/45 PPH)
- Ability to be positioned for horizontal or vertical feeds
- Supports a number of cassette sizes
- Uses Image Suite Software – easy-to-use platform specially designed for the end user

3 Replaceable Parts
- Superb reliability keeps you up and running
- But if service is needed – it's fast and simple
- Fix it yourself with 3 easy-to-install field replaceable units
- No tools or technical skill needed
- Or choose full-service repair from a certified technician

ROCKET

TELEMED

MOBILE
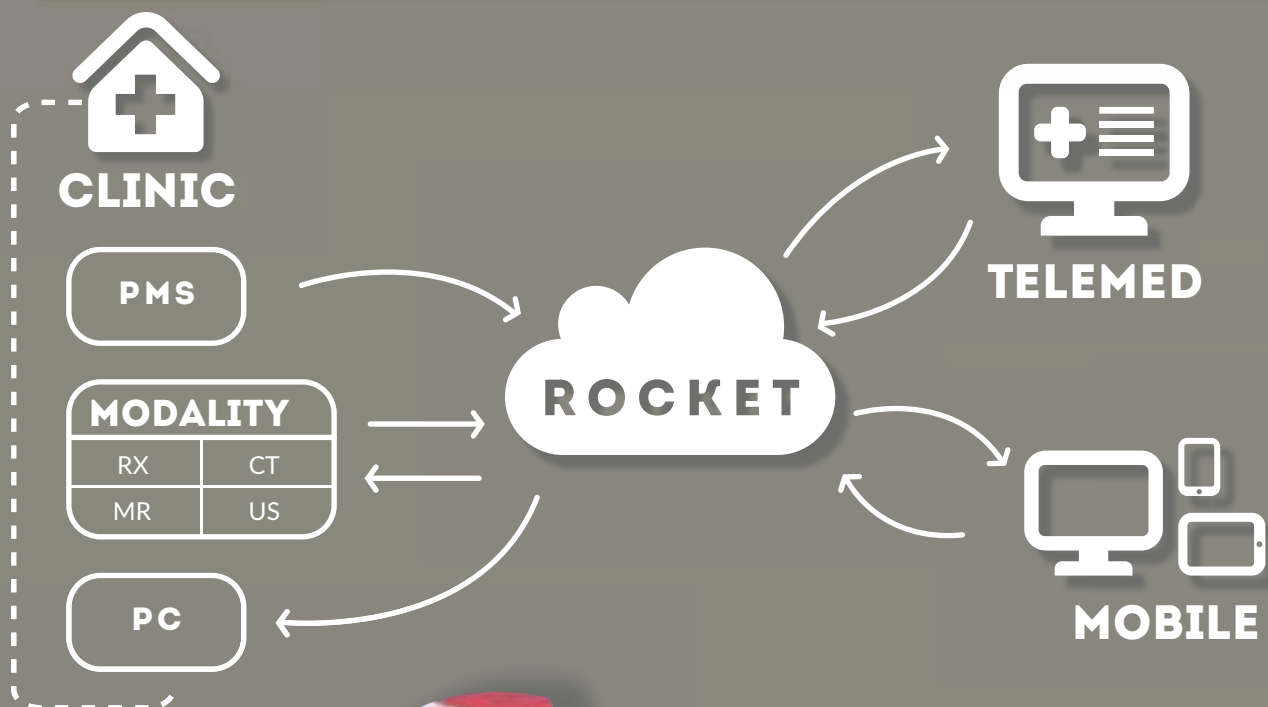

Designed by Vets for Vets

ROCKET MAIN FEATURES

- PACS
- Last generation viewer for DICOM Image
- Exam and Breed adaptive naming/de nition
- Easy Study Search
- Temporary modality
- Encripted Data Transmission
- Lossless data compression
- Security Back Up
- Ready for PMS integration
- Vendor Neutral Archive
- Telemedicine Platform*
- Advanced Orthopedic measurement tool*
- Reporting*

*Starting 2018 in the UAE

LOST FILES IN YOUR CLINIC? NEVER AGAIN

Rocket PACS platform enables structured files storage, with perfect management of digital files, such as DICOM, images, audio, video, photos and pdf.

STRUCTURED FILES STORAGE
Rocket has an open-PACS (Vendor Neutral Archive) that allows you to store all digital files, not just DICOM

YOUR DATA AT REACH IN A CLICK
Rocket, in a simple and intuitive way, allows you to identify, retrieve and quickly display single images, video, pdf files and diagnostic studies.

HIGHEST EFFICIENCY: SINGLE DATA ENTRY
Rocket is integrated with the main PMS soware for veterinary market. Paent and customer data are entered once and shared with the diagnosc images, for beer efficiency and producvity.

MANAGE AND SHARE DATA & IMAGES

The Rocket platform uses the most advanced technologies in Cloud, allowing access to data and images "anytime, anywhere".

IMAGES ALWAYS ON
Your images can be read on any device (PC, tablet, smartphone) through main popular viewers (OsiriX Horos, etc.). Rocket is a web application that can be used without limits on most devices, for your unlimited access

ABSOLUTELY SAFE
Encrypted protocols and certificates, daily backup and "Lossless data compression systems" limit critical data loss and optimize storage in your Cloud space.

SIMPLE AND INTUITIVE, VET MARKET NATIVE
The Rocket Platform has been developed taking into consideration veterinarians' request, in order to guarantee maximum efficiency. Everything is simple, intuitive and does not require expensive hardware and software infrastructure.

TELEMEDICINE - Starting 2018 in the UAE

Thanks to Rocket Telemedicine's platform, the Vets can request for a second opinion to a qualified specialists network

QUALIFIED VET EXPERTS NETWORK
Rocket puts you in touch with an international team of veterinarians, with specialized skills, to provide precise diagnoses to increasingly demanding customers.

SHARING IN A CLICK
Rocket Telemedicine Platform makes simple and intuitive the second opinion request, both from your own PACS or through the web, without additional hardware or software tools.

TELEMEDICINE SERVICES
• Diagnostic imaging
• cardiology
• ophthalmology
• oncology
• dental
• orthopedics
• dermatology

ADDED VALUE SERVICES

Rocket platform is designed with care to include progressive new services and technologies

OPHTHALMOLOGY

Vantage Plus Keeler (*Not available in* 🇬🇧 *and* 🇫🇷)

The LED cooler color temperature provides brighter illumination, longer battery life, and freedom from purchasing bulbs. The LED life expectancy is up to 10,000 hours.
Clinically, the superior optics combined with the LED illumination could provide greater detail, allowing you to find retinal pathology that was not visible with the xenon bulb BIO's.

Large Pupil
When looking through a large fully dilated pupil the optics are separate and the light source remains in the upper position, achieving maximum stereopsis.

Intermediate Pupil
The viewing optics and light sources are in a 'mid position' for maximum stereopsis.

Small Pupil
When looking through a small pupil the viewing optics and light source are converged to allow you to view the retina through the smallest pupils stereoscopically.

LED — *Longest life, brightest, better detail*

☀ *30% brighter than standard bulbs*

New Slimline Lithium Polymer battery weighs less than 53 grams

🕐 *Combined LED and Lithium Polymer battery can provide up to 6 hours of use on a single charge*

Practitioner Ophthalmoscope 3.6V Keeler

Filters:

codice **00003466 - E006116**

🔍 **CHARACTERISTICS**
- Head and handle
- Lens range up +40D to -25D
- Filters: Red free - Blue - Slit
- Rapid chargment in 2 hours

Mini lithium charger for 3.6V handle

codice **00003468 - E006117**

Finhoff transilluminator 3.6V (head only)

codice **00003467 - E006118**

PSL Classic Portable Slit Lamp Keeler

code **00002227 - E006109**

Precision machined aluminium chassis.
Advanced optics, 10x & 16x magnifications Top quality multi layered glass is crafted into our Keeler multi-element and multi-layer coated optical system to give maximum performance.
Big Slit Lamp features, Portable usability Unique features such as the fixation targets, and the 1mm square light patch for assessing a/c flare set the new standard for Portable Slit Lamps.

Filter wheel
Red free, Blue, Neutral density (0.8) and Clear

ALSO AVAILABLE

– Psl spare battery
codice **00002478 - E006110**
- Psl led bulb
codice **00002481 - E006111**

Slit wheel

Mini Loupes Keeler

Mini Loupes are designed to be ultra light and comfortable with minimal compromise in field of view. Absolute comfort is our achievement; excellent peripheral vision is the added benefit of our slim design.

CHARACTERISTICS

- **Work distance from 42 to 46 cm**
- **Magnification from 2.0x to 5.5x**
- **34000 LUX LED power**

ALSO AVAILABLE

– Mounting system regular fit/ standard temple black
codice **00002382 - E006112**
- Headband Keeler for Loupes
codice **00002230 - E006113**
- New k-led with 1 battery and charger tray
codice **00002231 - E006114**
- Xl advantage loupe 3.5X/42cm
codice **00002972 - E006115**

SUITABLE FOR:

- Ophthalmology
- Orthopaedics
- ENT
- Urology
- Obstetrics & Gynaecology
- General Dentistry

FIGHT FOR ANIMAL RIGHTS

"Animals can communicate quite well. And they do. And generaly speaking, they are ignored."

Alice Walker

FoschiLaser D5-810

Made in Italy 🇮🇹

Its diode technology is used optimally in Pain Therapy and Biostimulation and in soft tissue Surgery.

TECHNICAL SPECIFICATIONS

• Wave length: 810 nm
• Frequency: up to 25 kHz
• Maximum power: 5 W
  (from 0.10 W to 5 W at intervals of 100 mW)
• Mode: continuous emission (CW) or pulsed emission
• Fibre: 300 µm (200 µm/600 µm optional)
• Dimensions/weight: 20 x 15 x 12 cm

THE PACKAGE CONTAINS

• 1 surgical handpiece
• 1 therapeutic handpiece
• 1 300 µm optical fibre
• 2 eye protections
• 20 single-use tips
• 10 autoclavable tips
• 1 foot pedal

code **02711646 - E005794**

VETERINARY SOFTWARE

• Direct operational selection via colour touch screen
• Clinical protocols already set for major diseases
• Possibility to set customised parameters
• Updates via USB port

WHY CHOOSE FOSCHILASER

1. For simple and intuitive software, dedicated to Veterinary Medicine, with customizable parameters
2. To have surgery, pain therapy and biostimulation in one machine
3. For quick returns of the investment thanks to the many applications allowed
4. For the complete safety of the operator
5. Because the technology was developed in Italy ensuring high quality

EQUIPMENT

EQUIPMENT

Foschi F160HF Radio-scalpel
for Monopolar and Bipolar Surgery
Made in Italy 🇮🇹

Foschi F160HF is an **RF electrosurgical unit (radio-scalpel)** capable of supplying current suitable for cuts, coagulating cuts, coagulation in monopolar mode and coagulation in bipolar mode.

- **Pure cut**
- **Coagulating cut**
- **Deep coagulation in absence of coagulation**
- **Superficial coagulation**
- **Bipolar coagulation**
- **Cut with reduced production of necrosis**
- **Operating times programmable in thousandths**

code **00500807 - E005795**

CHARACTERISTICS

- Bipolar coagulation with automatic activation/deactivation
- Automatic impedance control (bipolar coagulation – autostart/autostop)
- Pulse interval repetition
- Timed emission (10 msec - 30 sec)
- Power control via monopole-encoder
- Adjustable sound emission
- Self-diagnosis of failures
- Control of radiated power
- Control of neutral electrode contact - patient
- Possibility to connect bipartite electrodes

With the following accessories included

- Sterilisable handpiece with buttons
- Handpiece for microsurgery
- Kit of assorted electrodes (10 pcs)
- Needles for microsurgery/hair removal (10 pcs)
- Blade electrode (3 pcs)
- Needle electrode (3 pcs)
- Ball electrode (3 pcs)
- Neutral electrode connection cable
- Steel neutral electrode
- Bipartite neutral single-use electrode (2 pcs)
- Neutral single-use electrode (2 pcs)
- Single airtight pedal
- 5 m power cable

AVAILABLE ON REQUEST: THE KIT FOR BIPOLAR OPERATION which includes:

kit code **02700009 - E005796**

- Bipolar Cable (3 m)
- Straight Bipolar Forceps (tips 2 mm)

Bipolar Cable (3 m)

Straight Bipolar Forceps (tips 2 mm)

Foschi F200 electro-scalpel
for Monopolar and Bipolar Surgery
Made in Italy 🇮🇹

Allows to execute surgical minimally invasive procedure of resection, evaporation and coagulation. Foschi F200 is a high frequency electrosurgical equipment which is suitable to light and medium surgery.

- **Pure cut**
- **Coagulating cut**
- **Deep coagulation in absence of coagulation**
- **Superficial coagulation**
- **Bipolar coagulation**
- **Microcontroller of the operating functions**
- **Supply from handpiece or pedal**

code **00002300 - E005797**
CHARACTERISTICS

Maximum output power CUT	200 W - 250 Ω	Working frequency	600 kHz
Maximum output power ENHANCED Ω	120W - 250 Ω	Patient circuit	F
Maximum output power BLEND	120W - 200 Ω	Mains voltage	115 –230 Vac
Maximum output power FORCED COAG	150 W - 150 Ω	Mains frequency	50-60 Hz
Maximum output power SOFT COAG	90 W - 100 Ω	Electrical input power	350 VA
Maximum output power BIPOLAR COAG	80 W - 100 Ω	Weight Kgs	6
		Size WxHxD mm	370x144x319

With the following accessories included

- Reusable handle with switches
- Assorted electrodes (10 pcs)
- Blade electrode 7 cm (3 pcs)
- Needle electrode 7 cm (3 pcs)
- Ball electrode 6 cm (3 pcs)
- Cable for neutral electrode
- Steel neutral electrode
- Disposable split neutral electrode (2 pcs)
- Waterproof foot switch
- Power supply cable 5mt

AVAILABLE ON REQUEST: the kit for bipolar
OPERATION AT THE INTRODUCTORY PRICE which includes:

EQUIPMENT

Foschi F120 electro-scalpel
for Monopolar and Bipolar Surgery

Made in Italy 🇮🇹

The Foschi F120 electro-scalpel is an electrosurgical unit capable of supplying current suitable for cuts, coagulating cuts, coagulation in monopolar mode and coagulation in bipolar mode, using neutral electrodes, single or bipartite.

- **Pure cut**
- **Coagulating cut**
- **Deep coagulation in absence of coagulation**
- **Superficial coagulation**
- **Bipolar coagulation**
- **Microcontroller of the operating functions**
- **Supply from handpiece or pedal**

code **00500806 - E005799**
CHARACTERISTICS

- Digital power display
- Sound emission adjustable in 5 steps (from 55 to 75 dBA)
- Self-diagnosis of failures
- Control of accuracy of radiated power
- Possibility to connect bipartite electrodes
- Storage of last settings used

- Neutral electrode
- Duty Cycle (action/pause) in seconds
- Pedal/manual activation
- Defibrillator protection
- Equipotential plug
- ABS container

With the following accessories included:

- Sterilisable handpiece with buttons
- Kit of assorted electrodes (10 pcs)
- Neutral electrode connection cable
- Steel neutral electrode
- Single airtight pedal
- 5 m power cable

AVAILABLE ON REQUEST: the kit for bipolar OPERATION AT THE INTRODUCTORY PRICE which includes:

Diamx VET
Diathermy in veterinary medicine

Diathermy is an innovative, non invasive physical therapy that leads to a heat generation within the body.
An ion flow is created inside the treated tissues due to an electromagnetic field. The involved cells are thus stimulated to reactivate their metabolism, with subsequent increased energy and therefore temperature variation. The capacitive mode is used to treat mainly the soft tissues like muscles, tendons and the more superficial structures, whilst the resistive mode is used to act primarily on bones, joints and on the more deep structures.

PRODUCT CONFIGURATION

- Main unit
- 1 Return Electrode
- 1 Capacitive application probe
- 1 Resistive application probe
- 1 Capacitive bipolar probe (for small animal version)
- 4 Capacitive electrodes
- 4 Resistive electrodes
- 1 Capacitive Static Electrode (for the horse version)
- 1 Resistive Static Electrode (for the horse version)
- Elastic Bands
- 1 250 ml Conductive cream Tubes

CHARACTERISTICS

- Dimensions 120 X 400 X 300 mm
- Weight - 7Kg
- Operating Frequencies 0,45 Mhz-0,68 Mhz ±10%
- Power 100 - 230 Vac - 300 Va
- Control Menu assisted through LCD Touch-Screen
code **00002352 - E005801** Horse Version
code **00001784 - E005802** Small Animal Version

Pulse Oximetry M800 VET-S1
with SPO$_2$

STANDARD CONFIGURATION

- 2.4" LCD colour display
- SpO$_2$ technology blt 0-100%
- Heart rate 25-250 bpm
- Charger not included

AVAILABLE ON REQUEST
- Rechargeable battery + Charger

code **00721395- E006108**

code **00712016 - E005812**

Pulse Oximetry M800 VET-S1
with 3-LEAD ECG

STANDARD CONFIGURATION

- 2.4" LCD colour display
- SpO2 technology blt 0-100%
- Heart rate 25-250 bpm
- 3-LEAD ECG
- Charger not included

AVAILABLE ON REQUEST
- Rechargeable battery + Charger

code **00721395 - E006108**

code **00721341 - E005813**

O$_2$ Concentrator 0-8 LT/MIN

code **02721625 - E005815**

The Oxygen concentrator is a medical device capable of retaining
Nitrogen and enriching the Oxygen content of the ambient air.
The product, enriched with Oxygen, then passes through a bacterial
filter before going to the patient.

UNIQUE

The O$_2$ concentrator
is extremely silent
and its price is the
lowest on the market!

CHARACTERISTICS

- Flow: from 0 to 8 l/min
- Oxygen concentration: 93% ± 3%
- Maximum output pressure: 0.04-0.07 Mpa
- Power supply: AC230V ± 10% - 50 Hz ± 1
- Noise: ≤50 dB max
- Weight: 27 kg
- Dimensions (d x l x h): 365 x 375 x 600 mm
- Electrical category: Class II type B
- Product category: Class II A

EQUIPMENT

Mayo serving trolley - Foschi
with raising and extractable inox level

code **00554078 - E005816**

CHARACTERISTICS

- Dimensions: 73,5 x 47,5 cm
- Height: 70/120H

Bridge serving trolley - Foschi

code **00572034 - E005817**

CHARACTERISTICS

- Dimensions: 76 x 42 x 90 / 140 h

Electrocardiograph: 1 channel

code **00709390 - E005867**

CHARACTERISTICS OF THE PRODUCT

- Large 3.8" backlit display
- Derivations: 12
- Modes: manual, automatic, analysis
- Printing channels 1
- Memory: 15 ECG exams
- Printer: H50 mm on graph paper
- Power supply: mains and rechargeable lithium battery with an autonomy of 2 hours of use
- Built-in ECG stimulator
- Connection to the PC via USB

Electrocardiograph: 3 channels

CHARACTERISTICS OF THE PRODUCT

- Backlit 5.7" liquid crystal display
- Derivations: 12
- Interpretation of the electrocardiogram complete with measurements, with a specific program for dogs and cats
- Modes: manual, automatic, analysis
- Possibility to enter the clinical information of the animal
- Help functions accessible by the user
- Memory: 15 ECG exams
- Power supply: mains and rechargeable lithium battery with an autonomy of 2 hours of use
- Printer: H80 mm on graph paper
- Built-in ECG stimulator
- Connection to the PC via USB port

Electrocardiograph: 6 channels

CHARACTERISTICS OF THE PRODUCT

- Backlit 5.7" liquid crystal display
- Interpretation of the electrocardiogram complete with measurements
- Modes: manual, automatic, analysis
- Help functions accessible by the user
- Memory: 150 ECG exams
- Power supply: mains and rechargeable lithium battery with an autonomy of 2 hours of use
- Printer: H112 mm on graph paper
- Built-in ECG stimulator
- Connection to the PC via RS232 serial interface, USB and wireless (optional)
- Internal accumulators recharge time: 18 hours 100%
