Eurovets YOUR complete veterinary Supply and Support SOLUTION.

## ABOUT EUROVETS

### EUROVETS IS YOUR COMPLETE VETERINARY SUPPLY & SUPPORT SOLUTION

Eurovets, established in 2001 has become the Middle East's foremost supplier of some of the world's best known veterinary products to veterinary clinics throughout the UAE.

We represent leading multi-national brands in nutrition, veterinary equipment, medicines and consumables for companion, equine and production animals. In addition to the traditional wholesaling, Eurovets provides warehousing, distribution, marketing and sales resources in order to support the product in the region.

We also offer a host of value-added services such as maintenance and support for all equipment supplied; service-based offerings such as allergy testing; even end-to-end IT solutions for clinics.

Eurovets supports Continued Professional Development, imparting knowledge of the latest developments in the field to veterinary professionals through high-powered seminars.

We pride ourselves on our professional approach and offer vet specialized product advice where required.

In conclusion our mission is to not only deliver excellent products but to be committed to deliver exceptional customer service to all veterinary clinics and pet retailers in the region.

Eurovets YOUR headquarters for veterinary supply and support and a proud distributor of the IDEXX brand.

IDEXX Laboratories, Inc. develops, manufactures, and distributes various products and services for the companion animal veterinary and livestock markets worldwide. The company offers point-of-care veterinary diagnostic products comprising instruments and consumables, such as blood and urine chemistry, hematology, quantitative immunoassay testing, and urinalysis analyzers; and rapid assays.

The company was founded in 1983 and is headquartered in Westbrook, Maine and has been operating in the Middle east for over a decade.

IDEXX is the single most widely used Laboratory equipment amongst veterinarians in the region.

# Introducing the **SNAP® Pro Mobile Device**

Change the way you look at **SNAP®** test results.

- ✓ Streamline SNAP® test protocols
- ✓ Increase work flow efficiency
- ✓ Eliminate redundant data entry
- ✓ More time for other tasks
- ✓ Automatically sends test results to the patient record
- ✓ Reduce time spend on manual data entry

## IDEXX VetLab Urinary Analyzer

Automatically reads and captures strip results

- Save time and eliminate errors with one-button operation and results in about 80 seconds.
- Automatically capture IDEXX UA Strip results and integrate with the patients' medical records and invoices.
- Improve results with consistent interpretation and color compensation for darkly colored samples.
- Automate work flow with the IDEXX VetLab Station.

## IDEXX In-house Analyzers

Deliver real-time care and increase practice revenue with a flexible, broad range of in-house profiles, a more efficient work flow and better information system.

### IDEXX SmartService™ Solutions

IDEXX SmartService™ Solutions is the highest level of customer support and service in the veterinary industry. With electronic troubleshooting, proactive maintenance and automatic software upgrades, it helps you increase your instrument uptime and improve practice efficiency.

### IDEXX integration technology

IDEXX integration technology allows data to flow back and forth between your practice management software and IDEXX in-house analyzers. This “two-way conversation” streamlines work flow by consolidating patient diagnostic data, minimizing data entry and trying errors and capturing lost charges. Activate IDEXX VetConnect®Plus and view all your diagnostic results anytime, anywhere.

#### IDEXX VetLab® Station Laboratory Information Management System (LIMS)

#### SNAP® Pro Mobile Device

#### Catalyst Dx® Chemistry Analyzer

#### Catalyst One™ Chemistry Analyzer

#### VetStat® Electrolyte & Blood Gas Analyzer

##### INFORMATION MANAGEMENT

Increase your laboratory information management and diagnostic capabilities.

- User-Friendly touch screen simplifies laboratory work flow.
- Integration with most practice management softwares.
- All patient results in a single easy-to-read report.
- Comprehensive patient records and diagnostic history, including parameter trending.
- Access to analyze descriptions and IDEXX VetLab Station snippet videos through the online Help system.
- Remote instrument troubleshooting with IDEXX SmartService™ Solutions

Manage your SNAP® results and improve workflow and profits when running the SNAP tests you rely on everyday.

- Automatically activates test device and displays results for interpretation to streamline technician's work flow.
- Sends SNAP test results to the patient record at the touch of a button.
- Electronically captures SNAP test invoice charges to reduce lost revenue when used with select practice management software.
- Shares information with your practice management system.

Revolutionary speed, throughput and flexibility put results in your hands more quickly so you can manage more cases simply and efficiently. Trusted IDEXX dry-slide technology offers accurate results.

- Preloaded profiles in easy-to-use CLIPs.
- Onboard whole blood separation.
- Multiple-patient load-and-go results.
- Complete menu flexibility: 35 parameters (29 individual tests and 6 calculations) and 7 convenient preloaded CLIPs.

##### CHEMISTRY

Deliver personalized, exceptional care with core diagnostic results in one sample run.

- Share comprehensive results (total T<sub>4</sub>, chemistry and electrolytes) during the patient visit.
- Get real-time answers for preanesthetic screens as well as sick-and-well-patient visits.
- Run just the tests you need with complete single-slide testing flexibility.
- Save technician time with load-and-go efficiency.
- See all of a patient's diagnostic results on one screen with IDEXX VetConnect® PLUS.

Assess electrolytes, blood gases, acid-base balance, ionized calcium, glucose, anion gap, tCO<sub>2</sub> and bicarbonate in-house.

- Designed and validated specifically for veterinary use.
- Convenient cassette choices to run plasma, serum, venous whole blood or arterial whole blood.
- Rechargeable battery for up to four hours of independent operation.

## See all your diagnostic results on a single screen, anytime.

- Only IDEXX gives you one comprehensive view of patient diagnostic results from all your in-house and reference laboratory testing:
- Consolidated historical results and trending graphs with IDEXX VetConnect® PLUS.
- Comprehensive point-of-care chemistry and hematology solutions with real-time results.
- Broadest menu of advanced reference laboratory diagnostics with fast turnaround times.
- Automatic alerts with personalized notification are sent to Iphone® or Android™ devices the instant results are ready.

**Snapshot Dx® analyzer**

**ProCyt Dx Hematology Analyzer**

**LaserCyt Dx Hematology Analyzer**

**Coag Dx™ analyzer**

**IDEXX VetLab® UA™ Analyzer**

### IMMUNOASSAY

Add this analyzer to your in-house laboratory for immediate results and efficient management of a wide range of diseases. Trusted SNAP® ELISA technology.

- Reads multiple tests simultaneously and efficiently
- Use SNAP® Total T<sub>4</sub>, Cortisol and Bile Acids tests to help evaluate thyroid, adrenal and liver functions.
- Now run SNAP® fPL™, SNAP® cPL™, SNAP® Feline Triple, SNAP® FIV/FelV Combo, SNAP® 4Dx Plus, SNAP® Heartworm RT and SNAP® Feline proBNP tests
- Quickly screen and monitor dosages and effectiveness of treatments.

Three cutting-edge technologies provide fast, accurate and complete results in just two minutes.

- An advanced five-part white blood cell differential with laser flow cytometry.
- An absolute reticulocyte count is provided and feline platelets are analyzed using optical fluorescence.
- Fast, precise count of red blood cells with Laminar Flow impedance™.
- Results validated for canine, feline, equine, bovine, ferret, rabbit, gerbil, guinea pig, pig and mini pig.
- 26 different parameters reported\*, including band neutrophil and nRBC indicators

### HEMATOLOGY

Laser flow cytometry providing in-depth, comprehensive CBC with a full five-part optical differential and an absolute reticulocyte count.

- Laboratory-quality laser flow cytometry technology individually examines each cell for accurate results.
- Absolute reticulocyte counts are the gold standard for classifying anemia.
- No daily maintenance. Results validated for canine, feline, equine, ferret, pig and mini pig
- Fluid analysis capabilities

Detect and diagnose clotting disorders in seconds. Connects to the IDEXX VetLab® Station for integrated results, electronic record keeping and parameter trending. Results are validated for veterinary use.

- Provides in-house testing for PT and aPTT in seconds for fresh or citrated whole blood
- LED optical detectors monitor blood flow to detect clot formation.
- Lithium ion battery runs more than two hours on a full charge for portability.

### URINALYSIS

Improves work flow and offers consistent results. Automatically reads IDEXX UA™ Strips and prints your results so there's no need to decipher strip colors.

- Simple operation: load strip, press a button, walk away- no need to wait for the results.
- Veterinary -specific strips validated for canine, feline and equine use.
- Reflectance photometry technology uses LEDs to reach test pads.

# Diagnostic Tests for IDEXX In-house Analyzers

Make confident real-time decisions. These fast, accurate and flexible veterinary-specific diagnostic tests give you comprehensive in-house capability.

# Diagnostic Tests for IDEXX In-house Analyzers

## VetStat® Electrolyte and Blood Gas Analyzer Cassettes

									
Electrolytes		Electrolytes 8 Plus		Respiratory/ Blood Gases		Ionized Calcium		Glucose	
Tests: Na+, K+, Cl-		Tests: Na+, K+, Cl-, pH, PCO2, tCO2, HCO3- and anion gap		Tests: Na+, K+, Cl-, pH, PCO2, PO2, SO2, tHb, tCO2, HCO3-, base excess and anion gap		Tests: Ca++		Tests: GLU	
Use this cassette every time you run a biochemical profile to obtain a complete picture of your patient's health.		Obtain a complete metabolic / respiratory picture so you can individualize fluid therapy when needed and identify and treat the causes of acid-base disorders.		Use this cassette for patients with respiratory and cardiovascular disorders, advanced anesthetic cases and all patients on ventilators to improve their chances of success in critical situations.		Confirm calcium imbalances on any patient with an abnormal total calcium, so you can begin treating your patients – and easing your clients' minds – as soon as possible.		Quick assessments of glucose values will help you treat hypoglycemic and diabetic patients, as well as monitor patients on insulin therapy and oral hypoglycemics for diabetes.	
<ul style="list-style-type: none"> <li>• Get rapid, accurate results for major electrolytes</li> <li>• Uncover specific conditions, such as hyperkalemia and Addison's disease</li> </ul>		<ul style="list-style-type: none"> <li>• Get rapid, accurate results for major electrolytes, acid-base and ventilation</li> <li>• Uncover specific conditions, such as hyperkalemia and Addison's disease</li> <li>• Monitor patients on therapeutic medications and fluid therapy</li> <li>• Evaluate blood pH and determine if underlying causes are respiratory (airway obstruction, lung disease, central nervous system disorders) or metabolic (renal disease, lactic acidosis, diabetic ketoacidosis, dehydration, ethylene glycol toxicity)</li> </ul>		<ul style="list-style-type: none"> <li>• Assess respiratory and breathing abnormalities</li> <li>• Monitor cardiovascular and respiratory functions</li> <li>• Assess a critical patient's need for supplemental oxygen immediately</li> <li>• Monitor oxygen and respiratory functions</li> </ul>		<ul style="list-style-type: none"> <li>• Measure the biologically active form of calcium in your patients' blood</li> <li>• Assess increases or decreases in ionized calcium levels, which can indicate devastating disorders, such as lymphoma, acute pancreatitis, renal disease or an underactive parathyroid gland</li> <li>• Monitor pregnant and lactating patients</li> </ul>		<ul style="list-style-type: none"> <li>• Use whole blood to quickly assess glucose values</li> </ul>

<ul style="list-style-type: none"> <li>• For use with fresh whole blood</li> <li>• Smaller sample size; as little as 0.2 mL needed</li> <li>• Must be run immediately</li> <li>• Separate blood draw needed for each cartridge</li> </ul>		<ul style="list-style-type: none"> <li>• Perform test when convenient; citrated whole blood keeps at room temperature for up to two hours</li> <li>• Test both citrate PT and citrate aPTT with one sample draw</li> <li>• Use a 3.2% sodium citrate evacuated tube or syringe</li> </ul>		<ul style="list-style-type: none"> <li>• For use with fresh whole blood</li> <li>• Smaller sample size; as little as 0.2 mL needed</li> <li>• Must be run immediately</li> <li>• Separate blood draw needed for each cartridge</li> </ul>		<ul style="list-style-type: none"> <li>• Perform test when convenient; citrated whole blood keeps at room temperature for up to two hours</li> <li>• Test both citrate PT and citrate aPTT with one sample draw</li> <li>• Use a 3.2% sodium citrate evacuated tube or syringe</li> </ul>	

Point-of-care testing that provides the information you need to send more clients home with answers and the confidence that you're doing everything to care for their pets.

SNAP® Pro Mobile Device and SNAPshot Dx® Analyzer

SNAP® Pro Mobile Device

SNAP® 4Dx® Plus Test	SNAP® Heartworm RT Test	SNAP® Feline Triple® Test	SNAP® FIV/FeLV Combo Test	SNAP® Giardia Test	SNAP® Parvo Test
8 2°C 25°C 30	8 2°C 25°C 15 30	10 2°C 8°C 15 30	10 2°C 8°C 15 30	8 2°C 8°C 15	8 2°C 25°C 5
INFECTIOUS DISEASE					
<p>Provide a more thorough annual parasitic disease screen and reinforce the importance of tick control. The SNAP 4Dx Plus Test provides accurate results for 6 vector-borne disease—heartworm, Lyme disease, Ehrlichia ewingii, Ehrlichia canis, Anaplasma phagocytophilum and Anaplasma platys—in 8 minutes using one blood sample.</p> <p><b>Sample requirement:</b> Serum, plasma or whole blood</p>	<p>Use this sensitive test for detecting even low worm burdens in just eight minutes. Minimal sample volume required.</p> <p><b>Sample requirement:</b> Serum, plasma or whole blood</p>	<p>In communities where dogs get heartworm, cats can too. Raise the standard of care for cats in your practice with this three-in-one test. Features FIV and FeLV detection as well as a screen for feline heartworm antigen for the same price as our SNAP FIV/FeLV Combo Test.</p> <p><b>Sample requirement:</b> Serum, plasma or whole blood</p>	<p>American Association of Feline Practitioners (AAFP) guidelines recommend testing all at-risk cats, sick cats and kittens to determine infection status. Feline immunodeficiency virus (FIV) and feline leukemia virus (FeLV) infections are two main causes of illness and death in cats. Screen for both diseases with just one blood sample.</p> <p><b>Sample requirement:</b> Serum, plasma or whole blood</p>	<p>Giardia infection is often missed with fecal floats alone. Companion Animal Parasite Council (CAPC) recommends a combination of fecal flotation with centrifugation, direct smear and, for symptomatic patients, a Giardia ELISA. Catch more Giardia-positives with the quick and accurate SNAP Giardia Test.</p> <p><b>Sample requirement:</b> Feces</p>	<p>Detect parvovirus during viral shedding before clinical symptoms appear. The SNAP Parvo Test will not cross-react with modified live vaccines, and easy-to-use swab greatly reduces risk of contamination.</p> <p><b>Sample requirement:</b> Feces</p>

## KEY

Catalyst® Optical Tissue Kit	E002948
Alcohol Prep Pad Kit	E003536

### SNAPSHOT DX® CONSUMABLES

SNAP® Total T <sub>4</sub> , 6 tests	E000634
SNAP® Bile Acids	E000572
SNAP® Cortisol	E000473

### SNAPSHOT DX® ACCESSORIES

PIPETTE TIPS T <sub>4</sub>	E003535
-----------------------------	---------

### LASERCYTE® HAEMATOLOGY SYSTEM CONSUMABLES

LaserCyte® CBC5R Reagent kit	E000614
Vetcollect® Tubes	E000543

### LASERCYTE® HAEMATOLOGY SYSTEM ACCESSORIES

Sterivex filter	E000539
-----------------	---------

### PROCYTE DX® CONSUMABLES

ProCyte Dx®, Reagent Kit	E000672
ProCyte Dx®, Stain Pack	E000674
ProCyte Dx®, IDEXX Hydro Clean	E002945
ProCyte Dx® Kit, Quality Control, L2	E000675
Procyte Dx® Kit QC Set L1 & L2	E003533

**Product Name**
**Eurovets Code**
**IDEXX COAG DX™ CONSUMABLES**

Coag Dx™ Cartridge Whole Blood PT PTWB	E002946
Coag Dx™ Cartridge Whole Blood APTT APTTWB	E002968
Coag Dx™ Cartridge Citrated Blood PT PTC	E002947
Coag Dx™ Cartridge Citrated Blood APTTC	E002967

**VETAUTOREAD™ HAEMATOLOGY ANALYZER CONSUMABLES**

VetAutoread™ Tubes	E000573
EDTA Tubes (1.3ml)	E000498

**BLOOD GASES AND ELECTROLYTES: VETSTAT® ELECTROLYTE AND BLOOD GAS ANALYZER CONSUMABLES**

Electrolytes 8 plus Cassettes	E000652
Respiratory Therapy Cassettes	E000676
Ionized Calcium Cassettes	E002542

**VETSTAT® ELECTROLYTE AND BLOOD GAS ANALYZER QUALITY CONTROL**

Opti-Check	E000660
Standard Reference Cassette 1	E003169
Standard Reference Cassette 2	E000649
Standard Reference Cassette 3	E000650
Haemoglobin Calibration Cassette	E000659

**VETSTAT® ELECTROLYTE AND BLOOD GAS ANALYZER ACCESSORIES**

VetStat® Calibration Gas	E000645
Printer Paper Roll (5 rolls)	E000491

**URINE: VETLAB® URINE ANALYZER CONSUMABLES**

IDEXX UA™ Strips (8 parameters)	E000454
IDEXX VetLab® UA Calibration Strips	E000455

**STATSPIN® CENTRIFUGE VT ACCESSORIES**

StatSpin® Sealing Pads	E000523
Serum Gel Tubes, SARSTEDT	E000575
Hematocrit Tubes	E000500
StatSpin® Rotor & Shield RT12	E000521

**SNAP® READER CONSUMABLES**

SNAP® T <sub>4</sub> , 6 tests	E000486
SNAP® Cortisol	E000473
SNAP® Bile Acids	E000572

## IDEXX Education and Training

More than 50,000 veterinary practitioners, technicians and practice management professionals visit the IDEXX Learning Center every month for the most current veterinary information, advances in technology and medicine, and continuing education credits. Log in for knowledge you can put into practice today.

## STEPS – Simple Tools for Effective Protocols

Train your whole staff and build a stronger practice with STEPs. Whether you're learning to use a new instrument or implementing a new testing protocol, you'll find guides and informative resources to get everyone in your practice on the same track.

Choose from these protocols:

Canine Cardiac Health

Feline Cardiac Health

Preventive Care

Preanesthetic Testing

Canine Diabetes

Feline Diabetes

Canine Pancreatic Health

Feline Pancreatic Health

Feline Oral Health

Vector-borne Disease

Work-flow Efficiencies

Explore our growing list of protocols and other training resources at [www.idexxlearningcenter.com/course](http://www.idexxlearningcenter.com/course)

NOTES

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

# WHY EUROVETS?

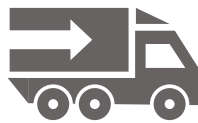

## IMPORTER

Source and import the highest quality products to meet the needs of veterinary, equine and camel markets across the GCC region.

## SEMINARS AND CPD EVENTS

Continuing professional development (CPD) seminars and events deliver relevant, practical knowledge for veterinarians and healthcare professionals.

## LOGISTICS, FLEET AND DISTRIBUTION

Temperature-controlled vehicle fleet and state-of-the-art inventory management system.

## FACILITIES

Fully certified, Temperature-controlled warehouses.

## BRAND MANAGEMENT & MARKETING

Digital & traditional marketing support for the brands and products we represent.

## AFTERMARKET SOFTWARE AND SUPPORT

In-house technical field support team provides onsite installation, staff training, equipment maintenance and software updates.
