EUROVETS
VETERINARY SUPPLIERS

YOUR COMPLETE VETERINARY SUPPLY AND SUPPORT SOLUTION

ABOUT EUROVETS

EUROVETS IS YOUR COMPLETE VETERINARY SUPPLY & SUPPORT SOLUTION

Eurovets, established in 2001 has become the Middle East's foremost supplier of some of the world's best known veterinary products to veterinary clinics throughout the UAE.

We represent leading multi-national brands in nutrition, veterinary equipment, medicines and consumables for companion, -equine and production animals. In addition to the traditional wholesaling, Eurovets provides warehousing, distribution, marketing and sales resources in order to support the product in the region. We also offer a host of value-added services such as maintenance and support for all equipment supplied; service-based offerings such as Spectrum allergy testing; even end-to-end IT solutions for clinics.

Eurovets supports Continued Professional Development, imparting knowledge of the latest developments in the field to veterinary professionals through high-powered seminars. We pride ourselves on our professional approach and offer vet specialized product advice where required.

In conclusion our mission is to not only deliver excellent products but to be committed to deliver exceptional customer service to all veterinary clinics and pet retailers in the region. Eurovets YOUR headquarters for veterinary supply and support and a proud distributor of the Midmark brand.

ABOUT MIDMARK

Midmark Corporation strives to bring efficient patient care to millions of people each day in the human and animal healthcare industries around the world. A leading provider of medical, dental and veterinary equipment solutions, Midmark is focused on continuously improving exam room workflow and enhancing patient-caregiver interactions. Midmark's more than 1,500 teammates worldwide are dedicated to redefining the future of the clinical space and making a positive difference in the practice of healthcare. Headquartered in Dayton, Ohio, Midmark maintains production and administrative offices in Versailles, Ohio, as well as four subsidiaries in the United States and international subsidiaries in France, India and Italy.

Midmark has a corporate culture like no other in the markets we serve. As we continue to grow with each year and throughout each generation, we will remain committed to our customers, our teammates, our community and to efficient patient care.
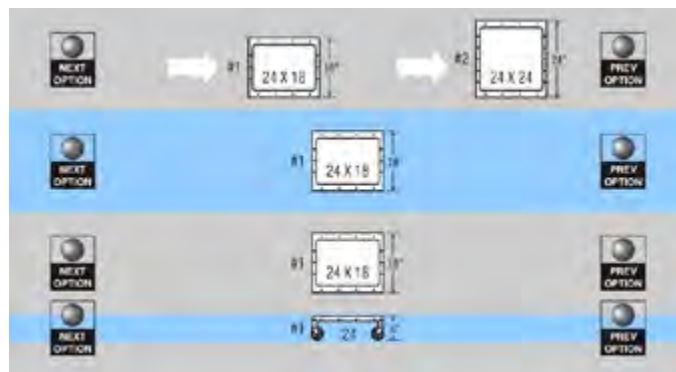

INDEX

Stainless Steel Cages

- All 20 Gauge 304 Stainless Steel Construction—23% thicker than industry average

- Heavy-duty reversible door

- One-piece stainless steel hinge plate—Multiple attachment points for stability—Prevents sagging

- 3/8" diameter frame

- 1/4" diameter crossmembers

- One-piece stainless steel corner/trim strips—Enhances strength and stability—Easier to clean

- 3/16" diameter vertical rods

- Full 1" radius corners

- Heavy-gauge latch—Padlock or door clip—Extremely quiet—Easily cleaned

- Formed Threading—Will not cross thread or strip out—Prevents self-Locking stainless steel screws from loosening with everyday use

- Easier to clean, less labor cost—Larger radius corners—Fluid retaining lip—Allows for a cleaner kennel environment

- Strong door latches and assemblies—Secure, yet easy to open and close

Hinge-Mounted IV Rod

• Brings the IV bag conveniently close to the animal without the need of a separate IV stand

• Installs easily on the hinge bracket

E005686/620-0362-00   IV Rod

Stainless Steel Kennel Runs

- Constructed of 22 gauge 304 stainless steel

- 3/8" Diameter stainless steel rods (most kennel run manufacturers use 1/4" or 5/16" rod)

- 1" Stainless steel square tubing

- 4' of visual isolation with stainless steel or FRP side panel variations

- 1" Solid cell insulation between panels (impermeable to liquids)

Choice of Door Design

- **Standard Door**—Reversible stainless steel doors – side by side units now may be opened in opposite directions. Stainless steel door hinges are mounted on top and bottom –not the side.

- **Sliding Door**—One-hand operation. Maximizes kennel room(s) eliminates the need for "swing door" space. Maintenance free marine grade anodized aluminum glide. Available with stainless steel rod or glass panels

- **Glass Door**—Open view boarding for owner comfort or full view observation. Easy, convenient cleaning. Aesthetically pleasing. Scratch resistant. Available in sliding or hinged models

Kennel Run Components

Vssi kennel run components are distinctively crafted from the most durable materials.

- 22 Gauge, 304 stainless steel isolation panels with 3/8" stainless steel rods and 1" stainless steel square tubing

- 18 Gauge, 304 stainless steel drain pan rests on an 11 gauge stainless steel tubing frame

Modular Cat Condos

Modular cat condos are user friendly, stylish and durable, and are easily assembled to fit your needs.

- Manufactured with commercial grade moisture resistant mdf panel—utilizes a formaldehyde-free adhesive system and leed supported pre-consumer recycled wood fiber

- Condo and storage unit open adjacent to each other to allow user access to both simultaneously

- Lefts and rights are easily assembled with 6 bolts screwed into preassembled inserts – 2 each in top, bottom, and underneath the divider shelf

Left Modular Condos

Matrx VMS® Plus

The Matrx VMS® Plus provides more functionality with two shelves for convenient placement of monitors and equipment. Its dual vaporizer mounting capability allows you to easily switch from one vaporizer to another.

- Includes occlusion valve and starter pack of Sodasorb® LF

- Dual view oxygen flowmeter—glass tube with a scale reading from 0.2 to 4 LPM—quickly switch from standard to magnified view at the touch of a finger

- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety

- Automatic air intake valve—opens to provide room air to patient if contents of breathing bag are depleted

- Oxygen flush

- 1500 cc CO_2 absorber with "Quick Release" lever feature for easy absorbent replacement (accepts prepack canisters or 1350 gm loose absorbent)

- Dome-type inhalation and exhalation valves – no tools needed to disassemble

- Scavenging/adjustable pressure limiting valve

- -60 to +60 cm H_2O pressure gauge

- 15 mm and 22 mm diameter corrugated breathing circuits

- One and two liter breathing bags

- Chrome portable stand with 5-leg spider base and casters

- Convenient monitor shelves

- Accepts Matrx VIP 3000® and TEC 3 vaporizers (one mounting kit included)

- Dual vaporizer mount capability

- Oxygen low-flow flowmeter add-on capability

Matrx VMS®

The Matrx VMS® Small Animal Anesthesia Machine is a long-time favorite of veterinary professionals. It is designed for safe, simple and controllable small animal inhalation anesthesia. Optional shelves available.

- Includes occlusion valve and starter pack of Sodasorb® LF
- Dual view oxygen flowmeter—glass tube with a scale reading from 0.2 to 4 LPM—quickly switch from standard to magnified view
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety
- Automatic air intake valve—opens to provide room air to patient if contents of breathing bag are depleted
- Oxygen flush
- 1500 cc CO_2 absorber with "Quick Release" lever feature for easy absorbent replacement (accepts prepack canisters or 1350 gm loose absorbent)
- Dome-type inhalation and exhalation valves—no tools needed to disassemble
- Scavenging/adjustable pressure limiting valve
- -60 to +60 cm H_2O pressure gauge
- 15 mm and 22 mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Chrome portable stand with 5-leg spider base and casters
- Accepts Matrx VIP 3000® and TEC 3 vaporizers (mounting kit included)
- Oxygen low-flow flowmeter add-on capability

Matrx VME2®

The Matrx VME2® places all your anesthesia equipment on one sleek, compact post. Optional add-on components allow you to add shelves, second flowmeter, second vaporizer, occlusion valve with safety relief and/or an emergency air intake valve.

- Dual view oxygen flowmeter—glass tube with a scale reading from 0.2 to 4LPM—quickly switch from standard to magnified view at the touch of a finger

- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety

- Oxygen flush

- 1100 cc CO_2 absorber and starter pack of Sodasorb®LF

- Dome-type inhalation and exhalation valves—no tools needed to disassemble

- Scavenging/adjustable pressure limiting valve

- -60 to +60 cm H_2O pressure gauge

- 15 mm and 22 mm diameter corrugated breathing circuits

- One- and two-liter breathing bags

- Portable stand with 5-leg spider base and casters

- Convenient accessory shelf

- Accepts Matrx VIP 3000® and TEC 3 vaporizers (single mounting kit included)

Matrx VME2® Tabletop/Wall Mount System

Flexibility and performance at a low price.

• Light weight – 16 lb

• Compact design: 18 1/8" x 16 1/4" x 7 1/2" (HxWxD)

• Convenient carry handle with soft vinyl grip

• Accepts VIP 3000® or TEC 3 vaporizers (mounting kit included)

• 0.2 to 4 LPM dual view oxygen flowmeter with standard and magnified views

• 1100 cc CO_2 absorber and starter pack of Sodasorb® LF

• Rubber foot pads help prevent scratching of countertop

• Breathing circuit package included

• Optional wall mount kit is available

• Low flow model replaces the 0.2 to 4 LPM flowmeter with a 0-1000 cc oxygen flowmeter

Non-rebreathing Anesthetic Delivery Systems

Matrx VMR® Low-flow Non-rebreathing Systems

Designed for safe, simple and controllable inhalation anesthesia for rats, small rodents, exotics and patients weighing less than 5 lb (2.27 kg). The Matrx VMR® provides rapid control of anesthetic depth with little resistance to respiration.

- Non-rebreathing anesthetic delivery system

- Dual-view oxygen flowmeter—glass tube with a scale that reads from 0-1000 cc/min—quickly switch from standard to magnified view at the touch of a finger

- Includes Isoflurane or Sevoflurane Matrx VIP 3000® vaporizer, well-fill or key-fill style

- Tabletop models feature a built-in handle and rubber feet

- Standard flow (.2-4 LPM) and Wall Mount models also available

Vaporizers

Matrx VIP 3000® Vaporizer

The choice of veterinary professionals for accurate anesthesia delivery under all conditions, the Matrx VIP 3000® Veterinary Vaporizer uses proven design principles to ensure output concentration is virtually unaffected by flow rate, temperature variations, duration of use, liquid level or back pressure fluctuation within its clinical range.

- Automatic flow rate and temperature compensation
- Large, easy-to-read dial
- Integrated safety lock to prevent unintentional engagement
- Large sight glass for at-a-glance liquid level monitoring
- Choice of agent-specific models for Isoflurane or Sevoflurane

Vaporizer Service
Factory Service for Accurate, Reliable Operation

To assure continued accuracy and reliability, every Matrx VIP 3000® and TEC 3 vaporizer should be serviced and calibrated annually. Service includes:

- Complete disassembly and cleaning
- Ultrasonic bath to clean internal metal parts
- Calibration and adjustment of Thermo Control
- Reassembly with new seals and wick*
- Cleaning/polishing of exterior parts

Vaporizers ARE NOT field serviceable. Disassembly or service by anyone other than an authorized Factory Service Technician may result in damage or subsequent unsafe operation of the vaporizer.

* If additional parts are required, you will be contacted with an estimate.

Our Vaporizer Service Center is staffed with highly qualified service technicians using state-of-the-art equipment. The Matrx VIP 3000® Vaporizer is a sophisticated device and under no circumstance should be tampered with or disassembled by anyone other than an authorized vaporizer service technician. These units ARE NOT field serviceable.

Matrx VXP™ Vaporizer Exchange Program

1 YEAR WARRANTY

Simple, convenient and effective

If your vaporizer has been manufactured or serviced in the last 5 years, contact your dealer and request a Matrx VXP™ vaporizer. You will receive a TEC 3 type vaporizer for the agent you specify (Isoflurane or Sevoflurane). Simply exchange your TEC 3 vaporizer with the Matrx VXP™ vaporizer and return it to the Midmark Vaporizer Service Center in the shipping carton in which you received your Matrx VXP™ unit.

When you receive your Matrx VXP™ vaporizer, mount it on your machine and you're ready to go. Enjoy no down time and the confidence of a cleaned, calibrated and tested vaporizer.

The Matrx VXP™ Vaporizer you receive has undergone the complete Midmark Vaporizer Service Center protocol.

Notes

Sodasorb® CO$_2$ Absorbent

The next generation of CO$_2$ absorbent with safety you can see, Sodasorb® LF is reliable, safe and user friendly. It's specifically formulated to safely absorb CO$_2$ while inhibiting the production of compound A, carbon monoxide and heat from desiccation. Unlike traditional absorbents, the Sodasorb® LF color change is permanent once exhausted and it does not revert back to its original color.

- Unique, pellet shape reduces caustic dust making for cleaner equipment and faster change-outs

- Minimal resistance to gas flow

- May be used in conjunction with all commonly utilized anesthetic agents including Isoflurane, Sevoflurane, Desflurane, Enflurane and Halothane

- Proven safety record ensures the comfort and well-being of both patients and staff

- Sodasorb® LF is available in convenient pre-pak cartridges, canister-pak bags and jugs; standard Sodasorb® is avalable in pre-pak cartridges, canister-pak bags and five gallon pails.

002-1761-00 Sodasorb® LF Canister-pak Bag, Case of 12

002-1909-00 Sodasorb® LF Jug, Case of 3

Ventilators

Matrx® Model 3002PRO Small Animal Anesthesia Ventilator

An electronically controlled, time-cycled, pressure-limited ventilator, the Matrx® Model 3002PRO replaces the breathing bag to provide smooth, even delivery of anesthesia. Designed specifically for veterinary practice, the Model 3002PRO assures a constant volume for each delivered breath, regardless of patient compliance and airway resistance. Easy-to-use controls make operation simple and convenient.

- Replaces the breathing bag
- Single volume control knob allows for minute changes for small patients
- Promotes regular breathing for a smoother plane of anesthesia, more normocapnic PaCO2 levels and a more normal blood pH.
- More economical use of supply gas (oxygen or clean dry air)
- Interchangeable bellows adapt to animals from 1 kg to 200 kg—no tools required
- Maximum working pressure limit (MWPL) adjustable from 10-60 cm H2O
- Dual airway pressure alarms that monitor and sound when the peak inspiratory pressure (PIP) of any breath either exceeds the preset maximum working pressure limit (MWPL); or fails to reach 6 cm H2O as in the case of a disconnect.
- Standard low supply gas alarm signals supply gas pressure below 35 psi
- Adapts easily to all anesthesia circuits with out-of-circuit vaporizers
- Respiratory rates from 6-40 breaths per minute at inspiratory flow rates from 0-100 LPM
- Built-in scavenging port
- Deliverable tidal volume (TV) range is from approximately 20 cc to 3,000 cc

Note: All versions of the Matrx® Model 3000 Anesthesia Ventilator include Model 3000 controller, bellows base assembly, pressure sensing tube and tee, driving gas tube, power cord, spare fuse and operating manual.

91806001	Model 3002PRO with 300—1600 ml bellows and bellows housing *Approximate Patient Weight Range 44—264 lb (20—120 kg)*

Small Animal Induction Chambers

An excellent addition to conventional inhalation anesthesia procedures, the Small Animal Induction Chambers are available in four sizes to accommodate cats, small dogs, birds, mice and other small patients.

- Available in 45 liter, 18 liter, 5.25 liter and 1.5 liter sizes
- Constructed of .22" (5.6 mm) impact resistant acrylic
- Inlet port accepts standard 22 mm breathing tube or 15 mm connector
- Outlet port accepts standard 19 mm scavenging tube or 15 mm connector
- Sliding, self-locking top has stops to prevent unintentional removal of lid
- Scratch-resistant feet
- Includes a hook-up kit to connect vaporizer to inlet port

Matrx® Occlusion Valve With Safety Relief

The Matrx® Occlusion Valve with Safety Relief Assembly allows you to simply and quickly close the breathing circuit to allow you to bag (sigh) the patient.

- Easily attaches to your Matrx® anesthesia machine, no tools required
- Constructed of long-lasting anodized aluminum
- Safety relief feature (25-30 cm H_2O) prevents unsafe pressure build-up in the anesthesia circuit/patient
- Simply operated by the push of a single silicone activation button
- Included with each Matrx VMS® and VMS® Plus Anesthesia Machine

93805114   Occlusion Valve with Safety Relief
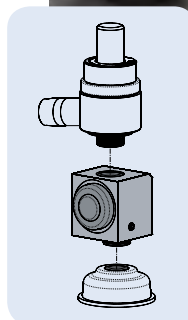

Occlusion Valve with Safety Relief attaches easily between the Matrx® Exhalation Valve Dome and APL Valve as shown.

Absorber Quick Release Conversion Kit

Easily convert a thumb nut version absorber to a convenient quick release absorber. Simple flip lever locking mechanism allows you to easily seal the absorber canister. Compatible with anesthesia machines manufactured by Fraser Harlake, Ohmeda and Matrx® Medical.

91800138   Quick Release Conversion Kit

Go from a thumb nut style absorber (left), to a quick release absorber (right).

Maintenance Kit

All the parts you need for routine anesthesia machine maintenance in one part number—easy and affordable. Save money versus purchasing each item separately.

91303015   Maintenance Kit
             for Matrx VMS®, VMS® Plus, VMC

91303016   Maintenance Kit
             for Matrx VME®-Stand Mount

91303017   Maintenance Kit
   for Matrx VME2®, VME®-Tabletop

91303015

Ayres Non-rebreathing System with Scavenger Adapter

Connects in seconds to any Matrx® anesthesia machine. Designed especially for the small animal patient with less than 15 lb (6.8 kg) body weight, it provides minimal dead space and less resistance to flow as compared to a full-circle system.

Midmark Casework

Midmark casework is the right choice for your clinic. Whether you're remodeling or building a new clinic, our casework not only improves clinic efficiency, it also enhances the look of your clinic for years to come. Midmark also offers casework design services.

Midmark Modular Casework is well-suited to withstand the rigors of animal healthcare environments.

- Seamless polystyrene drawers with rounded corners and one-piece construction allow drawers to contain spills and are easy to clean

- Steel frame construction delivers long life and consistent door and drawer performance along with a flexible shell design to allow for changing configurations

- Hidden, German-engineered, 110-degree steel hinges give a distinct, clean look to the casework

- Adjustable, self-cleaning ball bearing glides allow the drawers to slide in and out smoothly every time

- EPA-registered* anti-microbial pulls and surfaces help complement your current asepsis procedures.

- Seamless, polymer-covered panels provide a durable surface that resists spilled fluids and chemicals and can be cleaned with no surface degradation

Exam Room Casework Solutions

Midmark Casework can be designed especially for your clinic by our in-house project coordinators. We will design an efficient exam room workflow with your choice of how you want to interact with your patients and clients.

Midmark has a wide range of exam table solutions including our popular Canis Major® Lift Table. We also offer fixed-height island and peninsula tables, with and without overhang, in 48" and 60" lengths plus our new fold down exam table.

See pages 34-36 for details.

Treatment Room Casework Solutions

Create the perfect solution for your treatment room with our wide range of optons. We can help you design a practical, efficient space that's specific to your needs.

Midmark casework is more durable than wood and laminate casework and is warmer in appearance than stainless steel. Plus, Midmark Casework is designed to integrate seamlessly with other Midmark equipment.

Base Cabinets

- Durable 3/4" material laminated on the outside. Inside is coated with moisture and stain-resistant white melamine.

- Adjustable shelves—solid door cabinets include one fully adjustable laminated shelf. Additional shelves are available. Doors are flush mounted for easy cleaning.

- Superior drawer design—drawers laminated outside and constructed of durable melamine inside—sides are epoxy painted steel—75 pound capacity—glides open and close easily.

- Base Cabinet Tops will be cut for VSSI sinks if requested

Island Workstation

- Island Workstations are ideal when designing your clinic's exam/treatment area. The basic configurations are shown here. However, there are many options when it comes to exam cabinets, wet/prep cabinets, lights and more.

- Cabinets can be ordered in various sizes and with different door/drawer configurations. Cabinets feature laminate, stainless steel or scale tops.

- Wet/Prep Cabinets can be ordered in various sizes and with different door/drawer configurations.

- Island Base—available with two doors or three easy glide drawers and can be ordered to accommodate a hand sink.

NOTE: If ordered with sink, top drawer will be non-functional to allow room for plumbing.

Midmark Mobile Carts

Midmark mobile treatment carts have all of the same safe, efficient features as our casework with the ability to move them where you need them.

Mobile Treatment Cart M2

- 33"H x 27"W x 18"D (2) 4" Drawers & (2) Doors

- Serenity panel style w/flare handles

- Shipping Weight: 155 lb

Configuration Example:

M51A.791.SEH   M2, 18", 60 mm Casters, Frost, Top Surface (Kydex®)

Mobile Treatment Cabinet M4

- 33"H x 27"W x 18"D (3) 4" Drawers & (1) 8" Drawer

- Serenity panel style w/flare handles

- Shipping Weight: 152 lb

Configuration Example:

M41A.791.SEB   M4, 18", 60 mm Casters, Frost, Top Surface (Soft Edge Bumper Top)

Mobile Treatment Cabinet M5

- 33"H x 27"W x 18"D (5) 4" Drawers

- Serenity panel style w/flare handles

- Shipping Weight: 159 lb

Configuration Example:

M51A.791.SEH   M5, 18", 60 mm Casters, Frost, Top Surface (Soft Edge Handle Top)

Midmark Treatment Tables

Wet Treatment Tables

This table features a standard 36" height that easily integrates with Midmark Casework, giving your treatment area a uniform and aesthetically pleasing look. The table leverages our best-in-class casework designs. The wet tub is excellent for all treatment and dental procedures. The removable hair trap and easy clean drain make maintenance a breeze.

- Wall mount capability
- 18-gauge steel, more durable than wood laminates, withstand the most rigorous clinical work
- Load capacity is 300 lb
- Internal modular design allows you to customize door and drawer configurations to suit your needs
- Casework features all the benefits of Midmark design such as steel hinges, seamless drawers and adjustable ball bearing glides
- Baked-on epoxy finish means no rusting due to water exposure
- The perpendicular orientation allows for access to both long sides
- Optional goose-neck faucet and sprayer attachment makes post procedure clean up a cinch
- Available in Midmark casework colors including woodgrain option (additional charge)
- 48" or 60"L x 25"W x 36"H
- One end open for plumbing

WT82.R312.A (Black inserts (312) shown)

Note: One end open for plumbing unless island configuration is specified at time of order. Additional configurations available. Contact your Midmark representative for details.

Prep and Exam Tables

Island Exam or Treatment Table

The Midmark Fixed Height Island Exam/Treatment Table is perfect for your exam or treatment room. The table features a toe-kick base panel that wraps around the entire table, allowing you to approach your patient without obstruction. Choose from 44" and 59" lengths, a variety of tops in stainless steel or laminate and many door and drawer combinations, including custom designs to meet your needs. Sturdy 18-gauge steel construction with baked-on epoxy finish gives your treatment center a long lasting, professional and aesthetically pleasing look.

Fold Down Table

The unique fold down design of our wall-mounted folding exam table features a stationary stainless steel work surface perfect for charts, instruments and client education materials. Plus, a special "gas-assist" lifting mechanism makes raising and lowering the table a breeze. Midmark tables are designed to enhance your workflow and make you, your patients and clients as comfortable as possible.

Dental Delivery Systems and Accessories

VetPro® 1000

The VetPro® 1000 Mobile Dental Delivery System from Midmark uses our exclusive, oil-free technology. That means there is no oil to contaminate your handpieces, providing a clean, dry, aseptic work environment for you, your staff and your patients. And best of all—no more oil changes! That's better for your staff and better for the environment.

- Integrated oil-free compressor means no worries because it eliminates potential oil exposure to patients and messy changes! You will also have to replace your handpieces less often because there is no degradation from oil contamination.

- Handpieces automatically activate when removed from holders allowing you to focus on the patient.

- High and low speed handpieces included

- Fully enclosed delivery system makes cleaning quick and easy while minimizing compressor sound

- Integrated Acteon Satelec® Piezo Scaler saves valuable space and improves efficiency during the procedure.

- Standard Midwest 4-Hole connection type

- Optional fiber-optics enables proper lighting

- Quickly toggle between the dual 1-liter water bottles with a flick of a switch without de-pressurizing the system.

- External quick connects for water and air make setup easy

- Medical grade casters allow you to position the cart where you need it

- 115V AC

- 10' hospital grade powercord

- 18.5"D x 23"W x 36.5"H

Crosstex TWIST Prophy Angles

The Crosstex TWIST is a unique disposable prophy angle that moves in a 90° reciprocating back and forth motion instead of a traditional spinning motion. This patented design truly eliminates the spatter of prophy paste, saliva, blood and other potential infectious matter. It also eliminates frictional heat while maintaining continuous contact and pressure on the tooth surface.

Acteon Satelec® Scaling Tips

Made from the best alloys, exclusive to Satelec®, using patented procedures.

- Corrosion resistant
- Autoclavable
- Calibration: each tip is individually tested and "tuned" using the latest in ultrasonic calibration techniques.
- Spray Control System (SCS): more powerful cavitation, better spray control and perfectly-controlled vibration energy at the end of the instrument.
- Color Coding System (CCS tips): inserts are color coded to show their recommended power range.

VetPro® OptiMax Digital Sensor System

The VetPro® OptiMax is the industry's first and only veterinary-specific, bite-resistant sensor from the leader in digital dental X-ray—Midmark. We've combined our unsurpassed image quality with a patented sensor housing to provide clear, crisp images with unmatched resistance to bite damage—four times more than our standard sensor!

The VetPro® OptiMax sensor is designed to deliver the soft-tissue visualization plus crown and root definition that you need to ensure you are providing your patients with superior dental care.

- Patented bite-resistant sensor housing design

- Kevlar® reinforced cable, designed for improved durability

- Waterproof, hermetic seal, designed to reduce problems encountered during routine cleaning

- CMOS technology, designed to deliver enhanced image quality

- High-speed USB connection, designed to capture images 37% faster

- Rounded corners means easier positioning in tight spaces for better capture of roots

- Free software along with free clinical and technical support

VetPro® DR Digital Sensor System

The durable VetPro® DR delivers fast, clean images for diagnosis and client education. 19 μm x 19 μm pixel size, 26 lp/mm theoretical resolution and 4,096 levels of grey give you superior soft-tissue visualization, crown and root definition, and low noise.

No-Hassle installation: VetPro® DR uses the latest USB 2.0 technology. Simply connect the USB cable to your PC, use the quick calibration flash drive to prepare your sensor, and your system is ready to take high quality digital images.

- Cable is Kevlar® reinforced for exceptional durability

- Hermetically sealed, waterproof design means no problems during routine cleaning

- Advanced CMOS technology delivers outstanding image quality

- High speed USB 2.0 connection captures images 37% faster

- Rounded corners means easier positioning in tight spaces for better capture of roots

- 2-year warranty

- Optional Sensor Safe® Extended Care Program protects your sensor investment against damage not covered by the manufacturer's warranty, for five years

- Integrates with Avimark® Practice Management Software

Imaging Software

Our imaging software makes image capture simple. Select a tooth or tooth set to be imaged, and then click Acquire. Simple!

• Industry leading image quality

• Powerful, no-hassle software

• Intuitive and logical interface

• Simplified acquisition

• DICOM formatted images

• Back Up and Restore feature

• 22 practical and useful tools

• Create your own custom templates

• Bridges with most major practice management programs

• Store any digital image

• Integrates with Avimark® Practice Management Software

Use your VetPro® DR or CR Systems with our own easy to use imaging software. Look and formatting are familiar and easy to learn. Acquire, enhance and store images with ease. Our software features canine and feline tooth templates organized using the Triadan System, is DICOM compliant, and able to work with leading practice management systems and PACS servers.

Please contact the AAVSB RACE program if you have any comments/concerns regarding a program's validity or relevancy to the veterinary profession. Provider #436.

Dental

Procedure Lights

255 LED Procedure Light
Single Ceiling Mount

- Significantly more light intensity than similar products at 7,500 footcandles, an excellent color rendering index of 95 out of 100, and a color temperature of 4,400 K.

- Counterbalanced design allows easy positioning of the light precisely where you want it without drifting.

- 16 LEDs reflecting evenly off of 1,040 reflective facets will reduce the disruption of shadows while you work, producing an even distribution of light for uninterrupted illumination.

- Turn the light on/off and adjust light intensity from controls on each side of the light head.

- LEDs have 100-times longer life than most halogen lamps while consuming less energy, resulting in significant savings year after year.

- Sleek contours, a sealed light head and an autoclavable handle help to save maintenance time and increase product life.

- IEC/ES 60601-1, CAN/CSA C22.2 60601-1, 60601-2-41, CE Medical Device Directive, RoHS European Directive

Multiparameter Monitoring

Cardell® Touch

Accuracy and reliability at your fingertips. Midmark has designed the precision and consistency you expect from the Cardell® name into a fast, light and intuitive touch screen vital signs monitor.

Above all, an anesthesia monitor should be safe, reliable and user-friendly. The Cardell® Touch is highly advanced, yet easy to use. With veterinary specific algorithms and exclusive Cardell® Blood Pressure Technology, the Touch is the latest innovation from the most trusted name in veterinary vital signs monitoring.

- 10.5" touchscreen makes patient set up faster and easier or use the traditional-style buttons located below the screen
- Redesigned menus and improved controls allow for intuitive navigation
- Smaller, lighter form factor allows for easy transportation without sacrificing visibility
- World Class Cardell® BP, Nellcor™ SpO_2 and upgrade to CO_2 monitoring at any time by adding a Masimo sidestream or mainstream CO_2 module
- Masimo Multigas available
- Enhanced ECG data export capabilities
- USB port for downloading patient data
- Customizable alarm settings for up to three users
- Optional integrated 3-channel graphical printer
- 2-year warranty

8013-001	Cardell® Touch with Printer
8013-002	Cardell® Touch without Printer
8013-003	Cardell® Touch with Invasive BP and Printer

Diagnostic Monitoring

Cardell® Insight

Designed to be compact, lightweight, and durable, with an intuitive touch screen interface to make the Insight easy to use. The Insight's exclusive Cardell® Blood Pressure Technology provides accurate and reliable blood pressure readings with optional Nellcor Sp0$_2$ monitoring.

Popular uses:
• All areas including exam, treatment, surgery, recovery
• Monitoring patients as they move around your hospital
• Mobile practices and field monitoring purposes

Features:

• 3 animal specific alarm settings provide quicker patient set up

• Bright 7" touchscreen display with anti-glare coating for better viewing from any angle

• Fixed touch selection provides quick and easy access to most used functions

• 10 hour battery life with 5 minute auto mode for blood pressure allows for increased mobility

• 2-year warranty

Midmark Academy℠ Anesthesia Monitoring Training

Anesthesia Monitoring 101

Our comprehensive, hands-on, half-day, anesthesia monitoring training is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.

This training from Midmark Animal Health will help participants become familiar with best practices for operating and maintaining their anesthetic and monitoring equipment.

Training topics include:

• Anesthesia machine theory of operation, function of components and flow of gases

• Proper equipment maintenance for long-term performance and better patient outcomes

• Overview of ACVAA anesthetic monitoring guidelines for small animals

• Five parameter, hands-on monitoring including circulation, oxygenation and ventilation

• How vital signs are measured and what the readings mean

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credits∗ for Anesthesia Monitoring 101. Class size is limited to 10 attendees.

VI-AMT   Anesthesia Monitoring 101

4 CE Credit Hours!*

Anesthesia Monitoring 201

Building on the skills of our 101 lab, our 201 lecture is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.

Following the prerequisite Anesthesia Monitoring 101 dry lab, this lecture will help participants learn the keys to completing a successful anesthetic case.

Training topics include:

• Review of ACVAA/AAHA monitoring/anesthesia guidelines

• Setting up the patient for an anesthetic case

• Balanced anesthesia/pain management best practices

• Troubleshooting vital signs readings and anesthetic complications

• Developing an anesthesia record-keeping plan

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credits∗ for Anesthesia Monitoring 201. Class size is limited only by the size of the classroom space.

VI-AMT2 Anesthesia Monitoring 201

To set up your training session or if you have any questions, please contact your local distributor representative or call 1-800-360-2186.

4 CE Credit Hours!*

Midmark Animal Health Limited Warranty

SCOPE OF WARRANTY

Midmark Corporation ("Midmark") warrants to the original retail purchaser that it will repair or replace components of the animal health products manufactured by Midmark (except for products and components not warranted under "Exclusions") that are defective in material or workmanship under normal use and service. The sole remedy under this limited warranty is the repair or replacement, at Midmark's option, of the applicable products or components. This limited warranty shall only apply to defects that: (i) are reported to Midmark within the applicable warranty period; and (ii) are determined to exist upon examination by Midmark. This limited warranty extends only to the original retail purchaser of a product, and is not transferable or assignable.

APPLICABLE WARRANTY PERIOD

The applicable warranty period for each Midmark product commences on the date of delivery to the original retail purchaser of the product and shall continue for the period specified in the attached Warranty Guide, which Warranty Guide is expressly incorporated herein. References in the Warranty Guide to specific component warranty periods are in place of and supersede the generally applicable warranty period for the product under which the component is listed.

OBTAINING WARRANTY SERVICE

Warranty service must be obtained through either Midmark or an authorized dealer in the Midmark product line for which warranty service is requested. Midmark may be contacted for warranty service inquiries or issues via email at www.midmark.com, by mail to Midmark Corporation, 60 Vista Drive, Versailles, Ohio 45380, or by phone at: 1-800-MIDMARK.

It is the retail purchaser's obligation to arrange for delivery of a product to Midmark or one of its authorized dealers for warranty service, which delivery shall be at retail purchaser's expense. It is also the retail purchaser's obligation to comply with the warranty service instructions provided either by Midmark or its authorized dealer. The retail purchaser must provide Midmark with completed warranty registration information within thirty (30) days after purchase in order to obtain the benefits of this limited warranty.

EXCLUSIONS

This limited warranty does not cover and Midmark shall not be liable for the following:
(1) defects, damage, or other conditions caused, in whole or in part, by misuse, abuse, negligence, alteration, accident (including animal acts of any kind), freight damage, tampering, or failure to seek and obtain repair or replacement in a timely manner;
(2) matching of color, grain, or texture except to commercially acceptable standards;
(3) changes in color caused by natural or artificial light;
(4) products which are not installed, used, and properly cleaned and maintained as required in the installation and operation manuals for the applicable product (imaging product must be installed by a certified Midmark installer);
(5) products considered to be of a consumable nature;

(6) accessories or parts not manufactured by Midmark;
(7) specially manufactured products;
(8) charges by anyone (including Midmark's authorized dealers) for adjustments, repairs, replacement parts, installation, or other work performed upon or in connection with such products which are not expressly authorized in writing in advance by Midmark;
(9) costs and expenses of routine maintenance and cleaning;
(10) all sinks, faucets, and plumbing accessories;
(11) representations and warranties made by any person or entity other than Midmark; and
(12) with respect to software that is a product or a component thereof, that the software will be error free, can be used without problems or interruptions, or will be free from vulnerability to intrusion or attack by viruses or other methods.

EXCLUSIVE REMEDY; CONSEQUENTIAL DAMAGES DISCLAIMER

Midmark's only obligation under this limited warranty is the repair or replacement of defective parts. Midmark shall not be liable for and hereby disclaims any direct, special, indirect, incidental, exemplary or consequential damages or delays including, but not limited to, damages for loss of profits or income, loss of use, downtime, cover, and employee or independent contractor wages, payments, and benefits. This disclaimer shall survive any failure or asserted failure of the essential purpose of this limited warranty or its remedies specified herein.

NO AUTHORIZATION

No person or firm is authorized to create or approve for Midmark any other obligation or liability in connection with Midmark products.

WARRANTY DISCLAIMER

THIS LIMITED WARRANTY IS MIDMARK'S ONLY WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. MIDMARK MAKES NO IMPLIED WARRANTIES OF ANY KIND INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

STATUTE OF LIMITATIONS

No action may be brought against Midmark for breach of this limited warranty, an implied warranty, if any, or for any other claim arising out of or relating to the products, more than ninety (90) days following expiration of the warranty period. In the event multiple warranty periods exist with respect to a product, the ninety (90) day period provided for herein shall begin to run from expiration of the warranty period for the component to which the claim relates.

SEVERABILITY

In the event any provision of this limited warranty is determined to be invalid or otherwise unenforceable: (i) the provision shall be enforced in a manner that closest holds to its intent, while at the same time curing the invalidity or unenforceability, and (ii) the balance of this limited warranty, being severable, shall not be affected in the event the provision that is invalid or unenforceable cannot be enforced in any respect.

* The warranty as to these products or components only applies if such products or components are defective in material or workmanship at the time of delivery to the original retail purchaser and such defects are reported to Midmark within three (3) days from the date of delivery.

This Warranty Guide is not the entire warranty. Please see the applicable Limited Warranty for all other terms, conditions, and limitations.

Ordering Information

Midmark Product Ordering Notes

1. ORDERING
Please include the following with your order:
• Quantity
• Part number
• Description
• Signature of person placing the order
• Approximate shipping date required
• Method of transportation
• Purchase order number

Model number and name of item must be specified on purchase order. Minimum Order - $25.

2. SPECIAL DESIGN
Orders for equipment of special design, construction, finish or upholstery are not subject to cancellation after your acceptance of our acknowledgement. Special design products, custom design cabinets and special upholstery WILL NOT be accepted for credit.

3. RETURN OF MERCHANDISE
Authorization must be obtained for the return of any item. If return is authorized, transportation charges must be prepaid. Items returned for credit are subject to a charge of 25% or more to cover inspection, reconditioning and repackaging. Anesthesia accessory returns are not accepted for rubber goods over 30 days old, rubber goods not in original, sealed package and all hoses.   Goods without a Return Goods Authorization (RA) and merchandise more than 90 days old (from Midmark invoice date) are also not accepted for return.

Note: Certain items are non-refundable: Specials, Midmark Casework, Ritter Casework, Care Exchange ™ Workstations, Discontinued Items or Parts, Custom or Non-standard Colors, Service Upholstery and Service Parts if value is less than $50.

4. FREIGHT DAMAGE
It is the consignee's responsibility to count and inspect upon receiving. Merchandise arriving with external damage should be described on Proof of Delivery, Delivery Receipt or Bill of Lading. In case of concealed damage, consignee must contact the carrier within 15 days after receipt and claims for damage instituted.

5. IMPROVE PRODUCT QUALITY
Midmark Corporation reserves the right to change design and construction without notice.

6. ORDER CHANGES
Any requested changes to an order within 5 days of the scheduled/acknowledged ship date will result in an extension to the scheduled ship date. The new ship date will be re-scheduled/acknowledged based on
the extent of the changes requested.

7. CASEWORK ORDER CHANGES
Any order changed within 3 weeks prior to the scheduled ship date will result in a change of ship date and may incur additional costs. Any order cancelled within ten days before the scheduled shipping date will be charged a 20% cancellation charge.

8. SPECIAL ORDER REQUIREMENTS
Any order requiring special deviation from standard products will carry the following disclaimer:

We hereby accept and acknowledge the above captioned order provided,
however, because of the special nature of this order in that this equipment is
being supplied upon special design specifications, special materials, and/or
field modification, as per your request, the standard warranties of Midmark
on its products are not applicable to the order, and this acceptance and
acknowledgement is conditioned upon your indemnification and promise to
hold Midmark, its officers, employees and agents, harmless in respect to any and all warranty claims, damages, both direct and consequential,
expenses, costs, and any liability arising from the use of or relating to this special equipment.

9. ANESTHESIA SERVICE AND REPAIR POLICY
Midmark offers evaluation and repair service on Matrx ® anesthesia equipment. Products returned for repair require a return authorization (RA). Contact Customer Experience at 1-800-643-6275, press 8 then 108911, to obtain an RA number. Send the product freight prepaid.

Vaporizers returned for servicing also require an RA. A purchase order number must accompany the vaporizer. Subsequent to servicing, each vaporizer has a separate service and performance record established which is placed on file in the Midmark Vaporizer Service Center in Versailles, Ohio. Should the need arise to verify that your equipment has been maintained to manufacturer's specifications, we will be happy to supply this information.

10. IMAGING ORDER INFORMATION
Imaging products are not available through all Midmark authorized dealers. Please contact Midmark Animal Health Customer Experience if you need assistance locating an authorized dealer in your area.
