IT'S TIME TO  
BELIEVE IN A  
NEW LASER.

Class IV laser therapy entered the veterinary market in 2005. There is no question this modality **benefits** animals as well as people. The latest technology is affordable for all practices. Pay for features you need, not ones companies create but have no scientific evidence supporting their claims.

# DOSIMETRY AND PROTOCOL DEVELOPMENT FOR OPTIMAL PATIENT CARE.

Optimal patient care results from incorporating **Power, Pulsing, and the science of Dosimetry**. While it is true that **Continuous Wave (CW)** delivers the greatest dosage in the fastest time, studies prove that variable pulsing also provides enhanced stimulation to specific tissues.

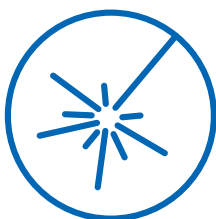

Pulsing above 10,000 Hz is also shown to provide increased anti-bacterial and anti-microbial effects. By combining 16W peak power and 25,000 Hz pulsing capabilities with scientifically supported protocols, doctorVet consistently ensures treatment efficacy.

Pain Management

Wound Healing

Biostimulation

Acupuncture

## MULTI-MODE HANDPIECES.

MASSAGER

Oral Conditions

Dermatology

# THE GREAT REVOLUTION, NOW.

80% of the patients that walk through your doors might benefit from **doctorVet** treatments. **doctorVet** provides a solution with the latest technology at the most affordable cost.

**doctorVet** does this by incorporating features that have scientifically proven benefit, and omitting the high-cost features other companies try to convince you are needed. Focus on what the science says; **Power, Pulsing, and Dosimetry** are the only proven parameters.

**20 YEARS  
OF EXPERIENCE  
IN EVERY**

**doctorVet**  
therapy laser

# MORE **VALUE** FOR YOUR PRACTICE.

- Powerful: up to 16W peak of power
- Tissue Optimized Pulsing: specific settings for all types of conditions
- Smart: the Laser Assisted Protocol offers great safety in any procedure
- Intuitive: 3 keystrokes to optimal treatments through simple icons
- Ergonomic: wide touch display
- Portable: move from consultation, to treatment, to kennels, to post surgery
- Chargeable: doctorVet Battery eXtra life
- Multi-Mode Handpieces
- Stylish: Italian design, innovative and compact

## **TOBI** COMES WHEN YOU CALL.

Proper training is essential to effective clinical use. But it is difficult to prepare a technician to treat every condition presented. **doctorVET** teaches in real-time with step-by-step, on board instructions. Our team of experts, with a combined 20+ years of veterinary laser therapy experience, know how to get clinical results. Within every phase of treatment, specialized advice is displayed to guide the technician through the intricacies of treatment technique that provide maximum therapeutic efficacy.

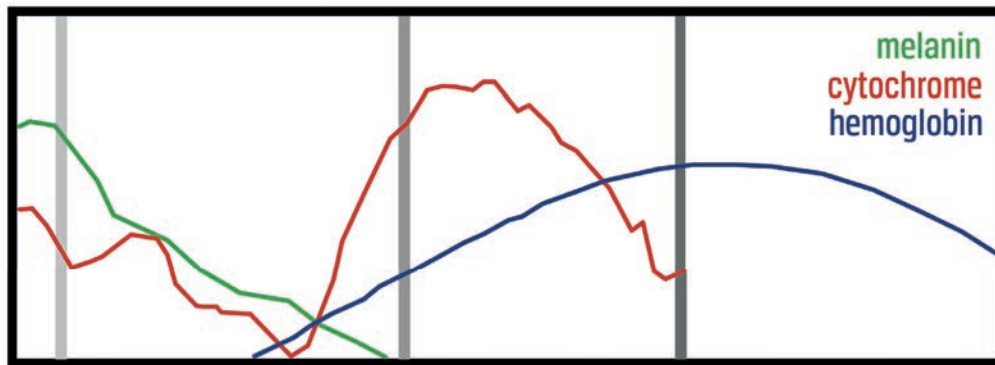

**TOBI** (Treatment On Board Instructions) is a tutorial that guides you through each protocol phase to ensure success for all your doctorVet treatments. The "i" instruction screen provides additional treatment advice to resulting in optimal treatment efficacy and training.

# STIMULATING WAVELENGTHS.

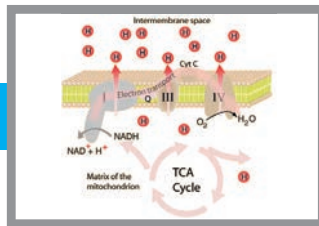

660nm

915nm  
OXYGENATION

WOUNDS

BIO-STIMULATION

OXYGENATION

Infrared wavelengths are ideal for biostimulation. No study exists identifying superiority of one wavelength over another. By combining 660 nm, 808 nm and 915 nm ( $\pm 10\%$ ), **doctorVet** ensures optimal penetration and stimulation of targeted tissues without heating surface tissue. This allows **doctorVet** to meet the broad treatment needs of veterinary practice.

Model	doctorVet
Code	LA8DV 001.1
Wavelength	660nm + 808nm + 915nm
Max power	16 W peak
Pulse mode	Continuous, pulsed
Frequency	Up to 25 kHz
Size (WxHxD)	161x236x176mm
Weight	2,3 kg
Laser Class	IV

Azienda con Sistema di Gestione  
per la Qualità certificato secondo:

UNI EN ISO 9001:2008  
UNI EN ISO 13485:2012

Made in Italy

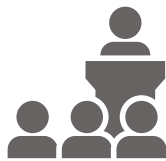

## NOTES

# WHY EUROVETS?

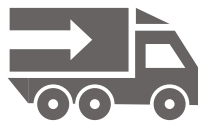

## IMPORTER

Source and import the highest quality products to meet the needs of veterinary, equine and camel markets across the GCC region.

## SEMINARS AND CPD EVENTS

Continuing professional development (CPD) seminars and events deliver relevant, practical knowledge for veterinarians and healthcare professionals.

## LOGISTICS, FLEET AND DISTRIBUTION

Temperature-controlled vehicle fleet and state-of-the-art inventory management system.

## FACILITIES

Fully certified,  
Temperature-controlled warehouses.

## BRAND MANAGEMENT & MARKETING

Digital & traditional marketing support for the brands and products we represent.

## AFTERMARKET SOFTWARE AND SUPPORT

In-house technical field support team provides onsite installation, staff training, equipment maintenance and software updates.
